

Camping Fan with LED Lights

-1-

Packing List:

8.7" Fan*1, USB Cord*1, Manual*1

How to Use:

1. Control the fan: Press the fan switch button to change speed 1/2/3/off in sequence; long press to turn off the fan at any speed.
2. Control the LED: Press the LED switch button to change brightness 1/2/3/off in sequence.
3. The fan can be adjusted within 180°, and used as portable fan, desktop fan, or hanged from the tent.
4. Please use 5V/2A adapter for charging.

Charging & Display:

1. Please use 5V/2A adapter for charging, low input may cause slow charging or non-working. It will run on the lowest setting during charging.
2. Designed with low battery protection, it will flash in **green light** for 3s and then power off at overlow battery.
3. There are 4 LED indicators on the fan which indicate battery level of 25%, 50%, 75%, 100%; the LED indicators flash during charging, and will be in green steadily when fully charged.
4. When the fan / LED light are working, the green indicators of corresponding battery level is on; when the battery level gets lower, the corresponding battery indicator will be off and the indicator of lower battery level will be on; the battery indicators will be off when turning off the device.

-2-

Display Status	Meaning
Green light flashes	Battery low, it will stop working after 3 seconds of running
Green light's on	On working, each indicator displays corresponding battery level
Green light flashes	On charging, the 4 indicators will be steady on when fully charged
Indicator Light's off	Power off

Product Features:

1. Adopts brushless motor, this fan is powerful with low consumption and noise. There're 3 speed settings: breeze / strong wind / super strong wind. It has 3 high-quality blades which make the airflow very strong.
2. It's lightweight and easy to carry around. The fan can be adjusted within 180°, making sure it blows in the direction you like. The features of rechargeable, LED light beads and hook, make it appropriate for camping / beach / recreational vehicle / treadmill / desk / domestic use, etc.
3. It has an LED lens light, the brightness of which can be adjusted, as well as a hidden hook. The LED light consists of 36 light beads, the lighting is powerful. The fan and the LED light can be controlled separately for your convenient use.
4. Built-in high energy density battery with a large capacity of 10000 mAH. Maximum working time of the fan is 6-7 hours at speed 3.
5. Type-C fast charging port. When the fan is out of power, charge it via the USB-C cord, it can also run on the lowest setting during charging; 2A input allows fast charging of the fan. It is compatible with computers or any ordinary USB charging ports. Built-in charging protection integrated circuit makes it safe and reliable.
6. The grid of the fan is small enough to prevent fingers from getting through it. It will auto stop when small sticks fall into the fan, totally safe!
