INDOOR Potting Mix

For Cactus & Succulent

SCAN HERE FOR TIPS & GROWING INSPIRATION

Enhances Desert Plant Vitality*

Contains a blend of forest products, sphagnum peat moss, sand and perlite to promote fast drainage for Cacti, Citrus Trees and Succulents to flourish.

*Vs unfed when used as directed

How to Use

1. **Select a pot with a drain hole.**
2. **Fill pot about 1/3 full.**
3. **Loosen root ball.** Place plant in pot.
4. **Add more mix.** Press lightly.
5. **Water.** Let drain.

Repotting

To avoid soil compaction and replenish nutrients, repot once every two years with fresh Miracle-Gro® Indoor Potting Mix For Cactus & Succulent. In between repotting, fresh potting mix can be used to top off the container as needed.

We recommend wearing gardening gloves when using this or other planting materials. Use with adult supervision and wash hands after use.

For Robust Cacti & Succulents... Remember to Feed.

Starting 30 days after planting, implement a regular feeding program with Miracle-Gro® Indoor plant food.

This **8 QUART** bag will fill five 6" containers.

Amounts may vary depending on the size of the root ball.

Our Commitment to Sustainability

When plants thrive, the world thrives. That's why Miracle-Gro creates products that make plants stronger and more resilient. We are thoughtful about our ingredients, which is why we are proud to include billions of pounds of upcycled green waste in our products every year. Through our GroMoreGood® initiative, we also seek to support local communities with the creation of gardens and green spaces that transform neighborhoods. See what we're up to at gromoregood.com

INGREDIENTS

This product is formulated from processed forest products, sphagnum peat moss, sand, perlite, fertilizer (see below) and a wetting agent.

In Georgia, this product is formulated to 45-55% processed forest products, sphagnum peat moss, sand, perlite, fertilizer (see below) and a wetting agent.

In New Hampshire, this product is formulated from sphagnum peat moss, processed forest products, sand, perlite, fertilizer (see below) and a wetting agent.
