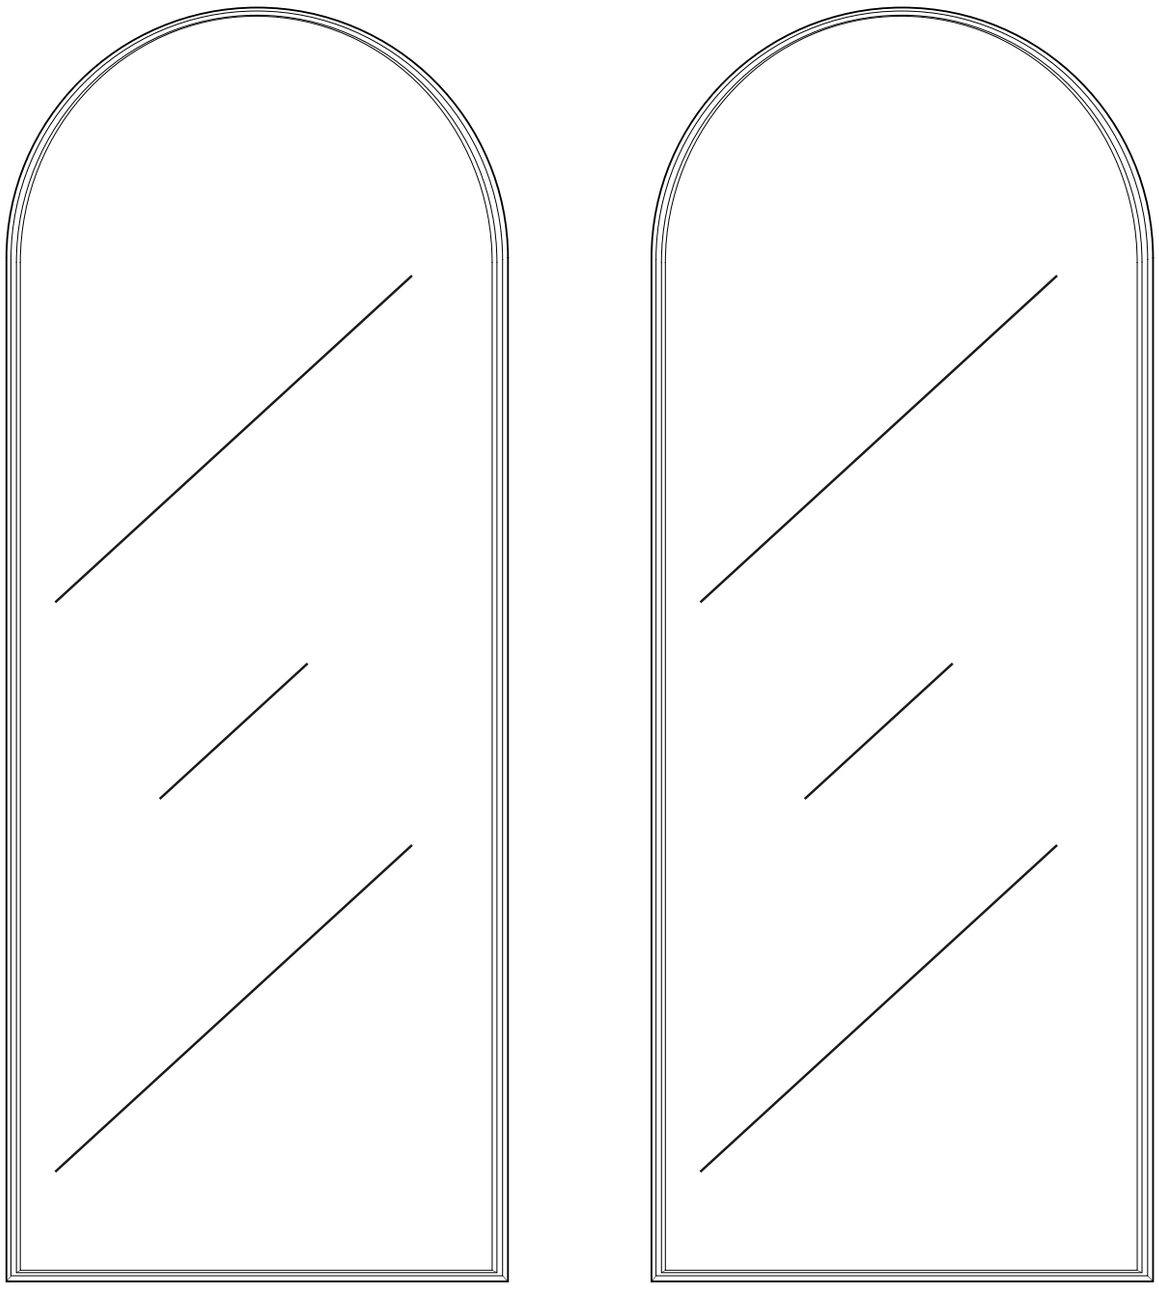
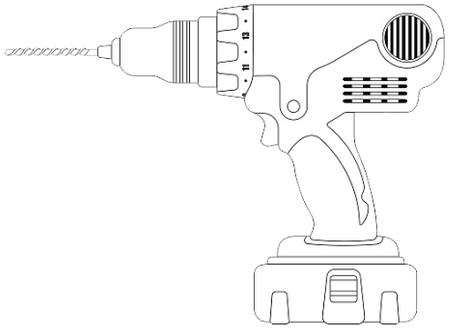
USE INSTRUCTIONS

Please read the instructions carefully before use.

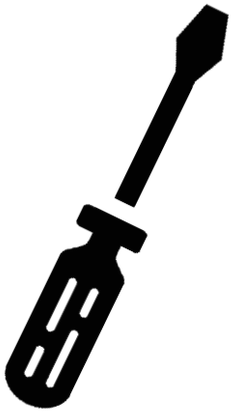


Installation Method For Hanging On The Wall

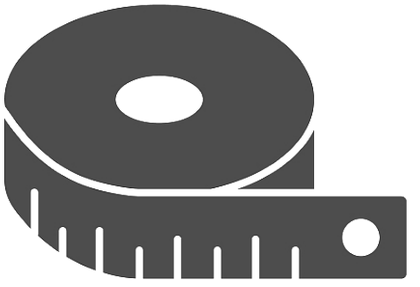
▶ Tools needed



Power Drill x 1

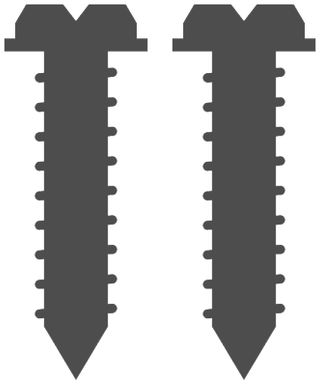


Screwdriver x 1

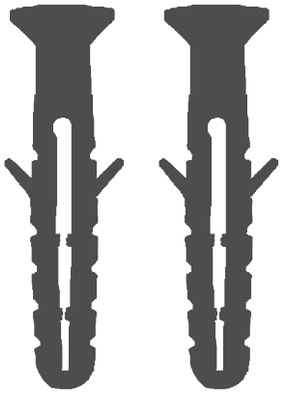


Tape Measure x 1

Pencil x 1



expansion anchor x 2



expansion screw x 2

Make sure the wall can support the weight of the mirror. Because the product is heavy, it is NOT recommended to hang it on the door.

Below is a table of the weight of the mirror

MIRROR SIZE /inch	WEIGHT / lbs
65*22	29.54
71*24	35.49
71*28	40.12
71*32	44.75

Installation Method

1.Use a tape measure to measure the distance between the two hooks on the back of the mirror and mark the same horizontal distance on the wall with a pencil

2.Use an power drill to drill holes in the marked spots on the wall, and then insert the expansion anchors into the wall.

3.Use a power drill or screwdriver to rotate the expansion screws into the expansion anchors.

4.Hang the mirror on the drilled expansion screws. Note: You do NOT need to remove the U-shape stand on the back of the mirror before hanging.

How To Clean

1.Spray some water containing detergent on the surface of the mirror, we recommend vinegar-water solution or conventional glass cleaner.

2.Wait a few seconds for the water to soften the stain, then wipe the stain with a clean cloth. For better cleaning results, we recommend microfiber cleaning cloths or newspaper.
