WINDOW A/C ● Easy install. No tools needed!

STABILIZER & SECURITY PACK

JOIN YOUR A/C TO WINDOW SILL FOR A SECURE, STABILE UNIT.

Please use standard installation process to install your air conditioner. The A/C Safe Security Lock is intended for added security and not as an installation device.

TO INSTALL SECURITY LOCK

1. Place the lock over the support rail of the air conditioner. Align to be in the center of the Air Conditioner.
2. Tighten the bottom screw (short screw) against the support rail.
3. Close the window on top of the lock and tighten the top screw (long Screw) against the frame of the window.

To uninstall simply turn the thumb screws counterclockwise (left) until pressure is released.

DETERS BURGLARS
from pushing in your a/c unit and adds additional a/c unit stability.
