VIRTUALLY UNBREAKABLE

Melting ice is the one thing you do not want to worry about when you're on the job site, in the woods, on the water or just hanging out with friends and family.

PREMIUM INSULATION KEEPS ICE FOR 7 DAYS

KEEPS ICE UP TO 7 DAYS

The 100% "Keeps Ice" test is an industry standard test that's used as an effective way to compare the relative performances of different coolers. The "real life" performance scenarios shown below are provided to help you plan your cooler contents based on the amount of time you will need to keep the contents cold.
