CRUZ XD 50" ZERO-TURN RIDING LAWN MOWER

Model: MYZ5022000

Important Notice: These FAQs are designed to help you get the most out of your Murray product. For detailed operating instructions and safety information specific to your model, refer to your owner's manual.

1. Does this mower come with a mulching kit or bagger?

The Murray Cruz XD 50" model is designed for side discharge mowing. While mulching kits and baggers are available for the 42-inch Cruz model, accessories specifically designed for the 50-inch deck are not currently available. The powerful discharge system effectively distributes grass clippings across your lawn for natural fertilization. Check with Murray Support (855-693-2582) for updates on future accessory availability.

2. How well does this mower perform on hills and slopes?

The Cruz XD 50" is designed for flat to moderately sloped residential terrain. Always operate up and down slopes and avoid mowing on wet grass.

3. What transmission does this mower have?

This mower features dual Hydro-Gear ZT-2200 hydrostatic transaxles – a heavy-duty transmission system known for reliability and smooth operation. These are sealed units that require minimal maintenance and provide excellent control and durability for residential use.

4. Is the seat adjustable?

Yes! The 18-inch high-back seat features 5 adjustable positions so you can find your most comfortable operating position. The seat slides forward and backward to accommodate operators of different heights.

5. Does this mower have an hour meter?

No, this model does not include a built-in hour meter. You can purchase aftermarket hour meters that are easy to install if you'd like to track engine hours for maintenance purposes.

6. What is the weight capacity for the operator?

While Murray doesn't specify a maximum operator weight, the reinforced frame and seat system are designed for residential use. Refer to the operator’s manual for safe operation guidelines.

7. Where can I get this mower serviced for warranty work?

Murray has a network of authorized service centers across the United States. Contact Murray Support at (855) 693-2582 with your zip code to locate the nearest authorized service center. We recommend registering your mower after purchase to ensure faster service and support.

8. What are the deck belt specifications?

The deck belt for the Cruz XD 50" model is a heavy-duty belt designed for the triple-blade system. For replacement belt part numbers and specifications, consult your owner's manual or contact Murray customer service at (855) 693-2582. Using genuine Murray replacement parts ensures optimal performance and maintains your warranty.

9. How much does this mower weigh?

The Murray Cruz XD 50" weighs 529 pounds. This substantial weight contributes to stability during operation and traction on hills. Use full-width ramps and manual pushing (not driving) when loading onto trailers.

10. How wide is the mower?

The Murray Cruz XD 52” wide with the side discharge chute flipped up.
