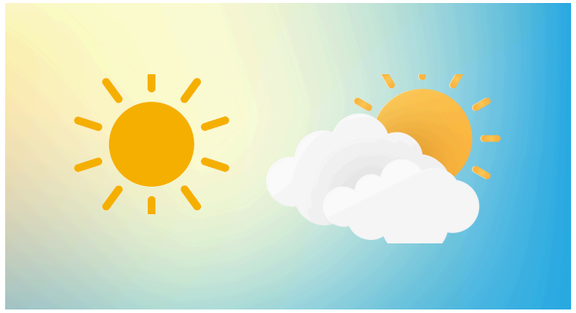
How To: Care For Your New Plant

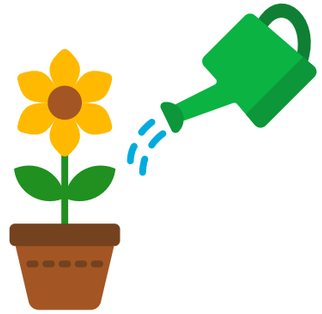
Open the box and say hello to your new green friend! Be sure to give your plant a nice drink of water.



Sunny window? Shady corner? Find the perfect spot for your plant to soak up the rays (or not!).

Time for a new home! Remove the old pot (and recycle it!) and get your plant comfy in its new digs.

Whether it's a cozy pot or the great outdoors, plant your new buddy with care.



Water regularly, give it some love, and watch your plant grow happy and strong!
