Mezcla de Concreto
Contiene Fibra

CRACK RESISTANT

No. 1006

Concrelisto

Mezcla de Concreto Reforzado con Fibra

COMMERCIAL GRADE

QUIKRETE®

Just Add Water!

Construction grade blend of portland cement, sand, gravel, and special synthetic reinforcing fibers. Exceeds 4000 psi (27.6 MPa) compressive strength.

- Significantly reduces cracking from drying shrinkage
- Designed for use in structural concrete applications
- Provides greater impact resistance
- Improved workability

Exceeds compressive strength requirements of ASTM C-387

WARNING: CAN CAUSE SERIOUS INJURY TO SKIN AND EYES
See additional precautions and first aid on back panel.

ADVERTENCIA: PUEDE CAUSAR LESIONES GRAVES A LA PIEL Y A LOS OJOS
Vease las precauciones adicionales, y de primeros auxilios al dorso del panel.

NET WT. 60 LB (27.2kg)
