Note

Please dispose of loose, round plastic pieces. These are used to separate the shelves for shipping purposes.

Caution Warnings

1. Two adults are recommended for ease of assembly. Use care when handling.
2. Do not allow children to climb or play in or around the shelves.
3. Assembly recommended on a soft surface, such as carpet, to avoid scratching flooring finish.
4. Weight capacity each shelf on feet levelers holds up to 850 lbs (evenly distributed)

Specifications

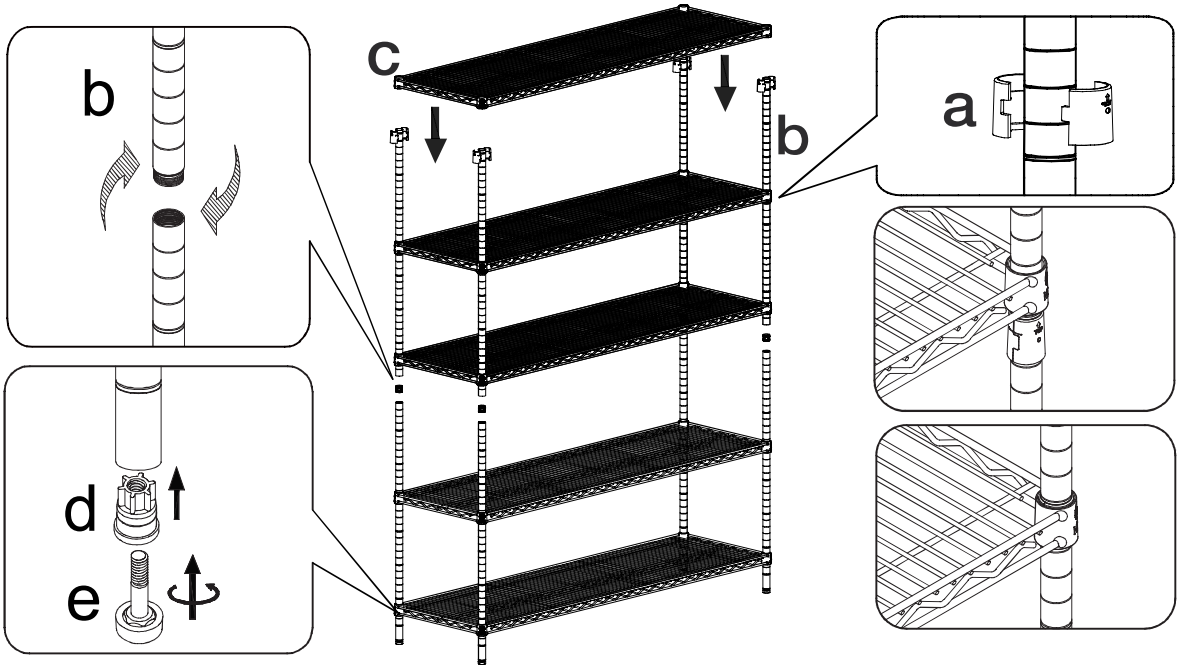
Model#	HD186072-5RCCPS	HD246072-5RCCPS	HD247272-5RCCPS
Product width	**60 in**	**60 in**	**72 in**
Product depth	**18 in**	**24 in**	**24 in**
Product height	**72 in**	**72 in**	**72 in**

Helpful Hints

1. Carefully read all instructions and caution warnings before beginning assembly.
2. Determine shelving heights prior to assembly to avoid dismantling for adjustment.
3. When placing the plastic tapered sleeves onto the posts, slide tapered sleeves up or down on the post until you feel it “snap” into the lines or grooves of the posts. It is normal to have a slight gap in between the two pieces of the plastic tapered sleeves when it is placed on the post.

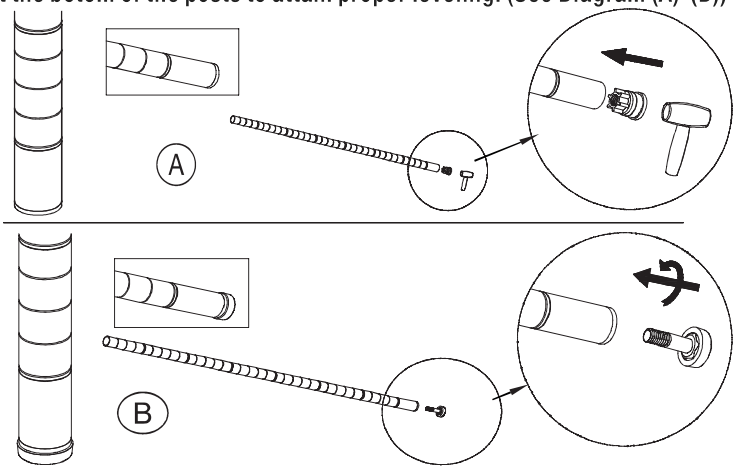
Accessory Parts List & Quick Guide

a)	b)	c)	d)	e)
 (40) plastic tapered sleeves (2) replacements	 (8) posts (Top post is with 4 threaded post jointers pre-installed)	 (5) shelves	 (4)pcs	 (4)pcs



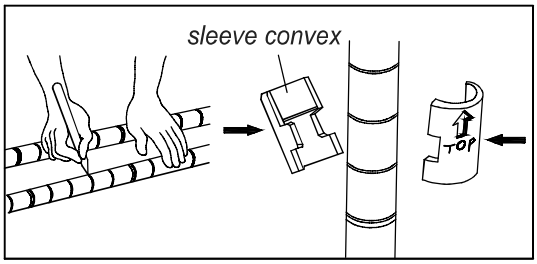
Assembly

Step 1: Mount the Insert into bottom of post (Hammer may apply), then screw the levelers into insert adjust the foot levelers in or out at the botom of the posts to attain proper leveling. (See Diagram (A)-(B))



Step 3: Bottom Shelf Assembly

i. Locate the desired position of the bottom shelf.
ii. Insert eight plastic tapered sleeves into the appropriate post groove, two in each post. Ensure tapered end is up. See arrow on lock. (See Diagram #2)
iii. Place shelf on its side and slide each post with tapered sleeves through the bottom of the shelf until snug. (See Diagram #3)
iv. After all posts are in place, position the unit in the upright position.
v. Push down on each corner of the shelf, ensuring that the shelf is in the fully locked position.



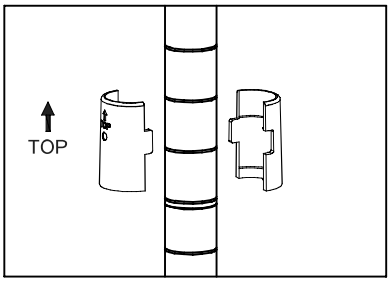


Diagram #2

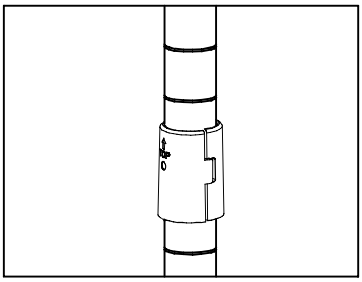

Diagram #3

Step 4: Additional Shelves Assembly (See Diagram #4)

i. Locate the desired position of the next lowest shelf and insert the tapered sleeves into the posts.
ii. Slide the shelf down from the top of the posts and onto the tapered sleeves. Push down on each shelf corner, ensuring that the shelf is in the fully locked position.
iii. Repeat for the remaining shelves.

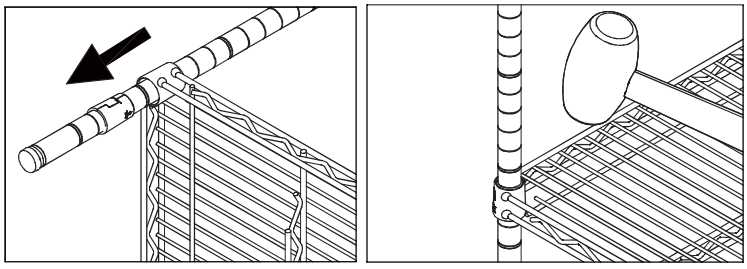

Diagram # 4

Step 2: Post Assembly

i. The top post section has a plastic endcap on one end and the bottom post has a foot leveler attached. Threaded post jointers are pre-installed for your convenience. Screw the posts (1 long & short) tightly together. (See Diagram #1)

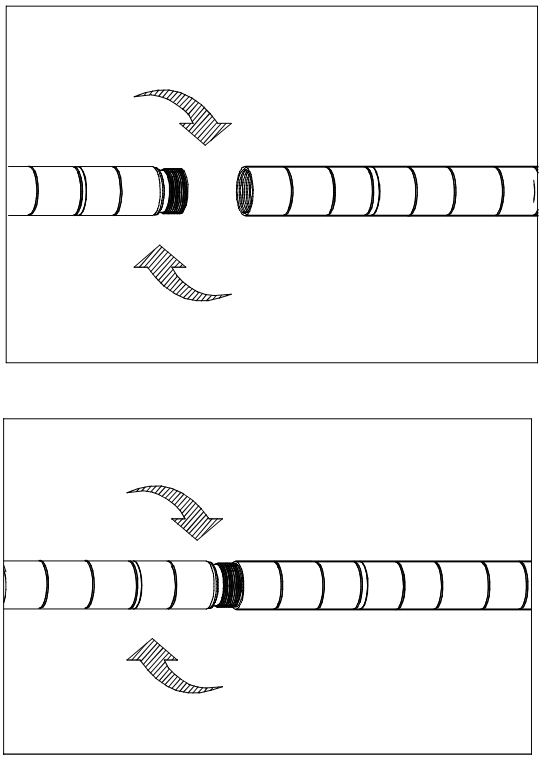

Diagram #1

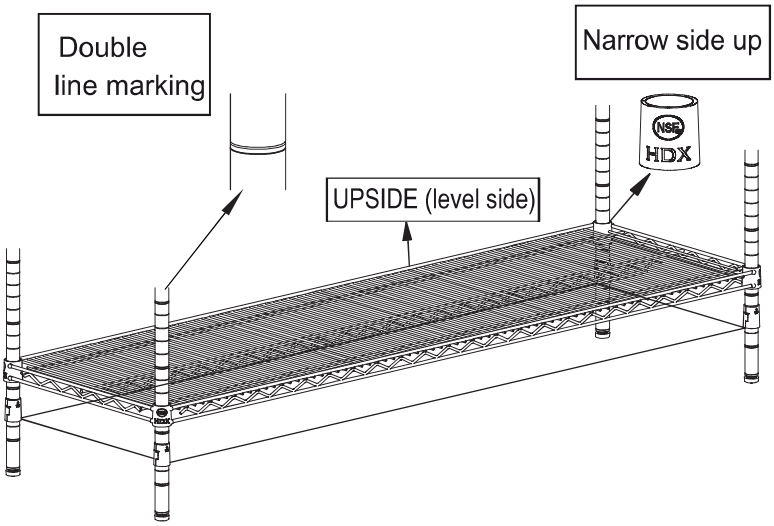
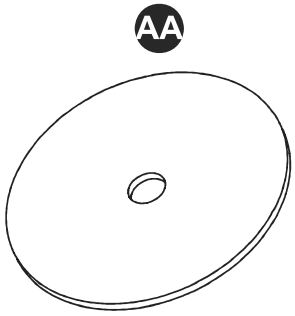
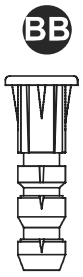
NOTE: The tapered sleeves must be at the same height for each pole to ensure the shelf sits on the sleeves levelly.
NOTE: The post has a groove with a double line marking. It can help to identify the height of the tapered sleeve in each post.



HARDWARE CONTENTS



Washer
Qty. 2



Plastic Anchor
Qty. 2

Screw
Qty. 2

To prevent the unit from tipping over, secure it to a wall in the following manner: Drill a hole in the wall using a 1/4 in. drill bit (not included). Insert the plastic anchor (BB) into the hole. Insert the screw (CC) through the washer (AA) then through the back of the top shelf wire and into the plastic anchor (BB) as shown. Be sure unit is secure and doesn't wobble or tip over.
