CozyLegs®

COZY PRODUCTS

PERSONAL COMFORT FLAT-PANEL HEATING SYSTEM

What is the wattage used by a typical space heater? 1500-2000 watts! That is a LOT of electricity! **The Cozy Legs® heater uses just 200 watts,** using constant, radiant heat.

Exceptionally Safe

- ETL-Certified Zero-Clearance Item
  (Cozy Legs may be placed directly against surfaces without risk of fire – no distance necessary)
- Built-in thermostat
- Lower wattage means less fear of tripping circuits, the leading cause of building fires.

Economical

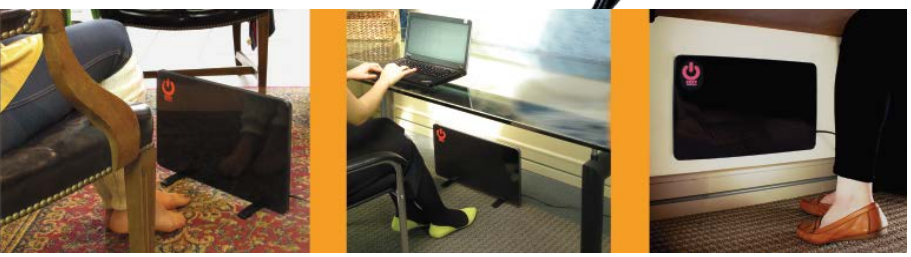
- **Energy-Efficient – *uses just 200 watts!***
- Comfortable employees are happier & more productive

Green

- Improve company image & employee expectations
- Reduce carbon footprint by 90% with lower energy use

Effective & Attractive

- Quiet & discreet; attractive metallic design
- Convenient in-cord roller switch for fingertip control
- Keeps feet & legs cozy where heat does the most good



ENERGY SAVINGS — 90% LESS ENERGY THAN A SPACE HEATER

SPECIFICATIONS:
