#1 CHOICE OF PROFESSIONALS

ULTRATouch™

RECYCLED DENIM INSULATION

Smart for Pros. Easy for DIYers.

No Gloves | No Mask | No Itchy Fiberglass | Easy to Install

Available at
The Home Depot

UltraTouch installs fast without gloves, masks, or extra gear. It's safe, itch-free insulation trusted by pros and DIYers alike.

Soft & Safe to Handle

Made from natural cotton fibers with no harsh chemicals or fiberglass. Completely safe to install it with bare hands... seriously.

Easy Installation

Perforated batts make it simple to tear to size and fit into place. Just measure, tear, and install.

High Performance

Available in multiple R-values to fit your project needs. Batt's are designed to fit standard wall cavities for quick, efficient installation.

CUTTING TIPS FOR BEST RESULTS

Use a metal ruler or board to press down the cut line

Keep the insulation compressed throughout the cut

Cut on a stable, flat surface to maintain pressure and alignment

Built to Perform.

Fire Resistant

Meets Class A fire rating standards

Sound Absorbing

Reduces noise transmission between rooms

Mold & Mildew Resistant

Borate-treated for long-lasting resistance to growth

No VOCs

Safe for indoor air quality with no chemical irritants

Thermal Performance

Excellent insulation for energy efficiency

Safe for Everyone.

Made from 80% recycled denim, UltraTouch is non-toxic and safe for homes, installers, and even pets. No fiberglass particles, no formaldehyde, no harsh chemicals—just soft, sustainable insulation you can feel good about using.

It's a sustainable alternative to traditional fiberglass insulation that doesn't compromise on quality or performance.

Ready to Upgrade Your Insulation?

Whether you're a professional contractor or a DIY homeowner, UltraTouch makes insulation simple, safe, and comfortable. Skip the hassle and use UltraTouch on your next project.
