SMART GARAGE HEATER CONNECTION GUIDE

MODEL NO: GH10K Smart
GH15K Smart

KEEP THIS USER MANUAL FOR FUTURE REFERENCE.

Connect to AIR.ai App

Use the AIR.ai App to control your electric heater from your iPhone or Android device even when you are away from home.

System Requirements

- Supported wireless routers must have an available 2.4 GHz operating frequency
- Standard: 802.11b/g/n bands
- Supported smartphone systems: Android 6.0 or later
iOS 11 or later

Operation Guide

Please scan this QR code to watch the step-by-step guiding video.

A. Scan the QR code below or search 'AIR.ai' on App Store or Google Play and download it.

AIR.ai

B. Launch the AIR.ai App and log in to your account (sign up for your first use).

C. Turn on the **Bluetooth** of your phone and connect your phone to your **Wi-Fi**.

D. Make sure the heater is connected to power and is in standby mode (not powered on). Press the “**+**”& “**-**” button together for 5 seconds to enter the Wi-Fi pairing mode, it emits a beep sound and the WiFi indicator will keep flashing.

E. Back to the AIR.ai App. Press the '+' button in the top right corner, and click 'Add Device'. The App will search for the heater automatically.

F. Press the 'Add' button to add your device.

G. Choose your Wi-Fi (the one your phone is connected to) and enter the password. Press the ‘**Next**’ button to continue.
