

Avoid the Cost and Hassle of
Re-applying Products That Don't Last

LONGEST LASTING MOLD PREVENTION PRODUCT AVAILABLE.

Innovative formula uses a high-tech polymer to microscopically bind a proprietary blend of biocides and fungicides to virtually any indoor or outdoor surface. This invisible, breathable barrier protects through 100's of wet-dry cycles. Other products get rinsed away when exposed to water or condensation. Note: scrubbing or using harsh cleaners on the surface will remove the invisible barrier. Re-apply to maintain the longest lasting protection against mold, mildew, germs and musty odors.

NON-TOXIC. Safe for people, pets, plants. No harmful fumes. Zero VOCs.

LOW ODOR. A light, harmless odor may be detected when spraying. Odorless when dry in 1 hour.

LEAVES NO VISIBLE RESIDUE. When lightly misted on tile, grout, drywall, wood, metal, concrete, rubber, fabric, carpets, roofing, insulation, boats, so much more.

ECONOMICAL. Covers about 250 sq ft per 32oz which is double the coverage of competitors. Plus it lasts significantly longer, so saves time, cost and hassle.

VOC: 0 grams/liter; 0 lbs/gallon
Do not swallow. Do not freeze contents.

Active Ingredients EPA Registration No. 5383-107, 5383-121. Less than 1% by weight.

DIRECTIONS. Shake well. Lightly mist clean surface from 6 to 8 inches. Do not overspray. If excess product pools on surface, dab it up with cloth. Allow to air dry for 1 hr. Do not wipe on or wipe dry.

FOR BEST RESULTS. Before applying, deep clean the surface using our non-toxic Mold & Grime Cleaner Prep.
