

*Van Zyverden's*  
**PATIO LILY ORANGE PIXIE** *with Orange Metal Planter and Growers Pot*

Lilies are one of the truly great garden plants, as they are beloved by gardeners everywhere. Their beauty, diversity, extended season of bloom, graceful stature and overall reliable disposition reflect the fruits of hundreds of years of selective breeding. In Chinese, the word 'Lily' means 'forever in love'. The liliium family is so large, varied, and complex that it is challenging to describe them in short. Lilies are deer and critter resistant. Plant just about anywhere - borders, beds, cutting gardens, perennial gardens, pots and containers.

---

*As lilies need a cold period  
in order to grow and develop  
properly, start them early*

*Lavish, exotic color*

*Easy to grow  
in containers*

---

**About This Variety:** Our patio lily kit comes with everything you need to grow this exotic plant. One large packaged Orange Pixie Lily bulb, a 5" x 7" trendy orange metal decorative outer pot, a 5" nursery pot, a block of compressed soil, and growing directions.

**Growing Instructions:** Plant early spring so the lily bulb can get established before the hot weather. They love the sun so consider that when choosing a location, however some afternoon shade will extend flowering time. Simply expand the soil, following the directions, fill the nursery pot with 2/3 of the medium, position the bulb, roots down, pointy end up and cover with the remaining soil. Then water well, not letting the pot dry out.

**Care Tip:** As bulbs are essentially storage mechanisms, they already contain everything needed to produce flowers. There is no need to fertilize them. After flowering, remove the root ball from the pot and plant in your garden prior to frost to enjoy blooms next spring.

**Exposure:** Full sun to partial shade

**Height:** Grows 12-18" tall

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
