Universal Tool

ROGRIP F

Water Pump Pliers

The ROGRIP F is ergonomic and ensures a higher gripping capacity than standard water pump pliers, thanks to the curve shape design. The double-hardened jaws ensure a firm grip on any surface, even under high stress. The pliers are durable and non-slip thanks to the self-clamping teeth and the 3-point handle on the tube as well as the soft-touch handle.

Double hardened jaws, extremely durable

Firm grip on any surface even under the stongest conditions

Large grip width

Reliable grip and hold up to 2” pipe diameter

Wide handles

More comfort and better power transmission

Safety blocking system

Prevents unintentional opening and enables up to 50% faster adjustment

New handle design

Good grip with two handle versions

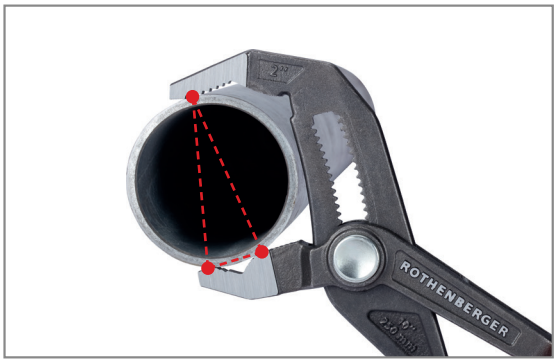

ROTHENBERGER Curve-Shape-Design

Particularly ergonomic for large pipe diameters. Reduces the risk of pinching fingers

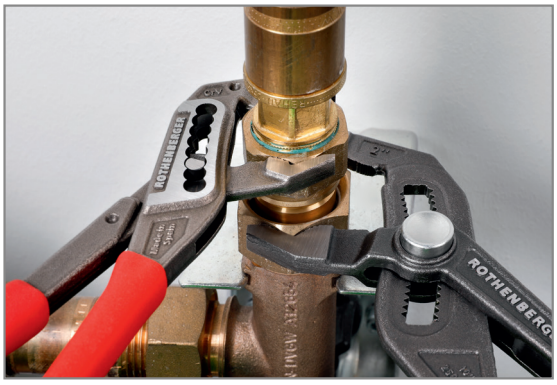

No. 1000002702
