## USE:

### RIP CUT

Up to 21" Tile

### CUTS:

- Ceramic
- Porcelain

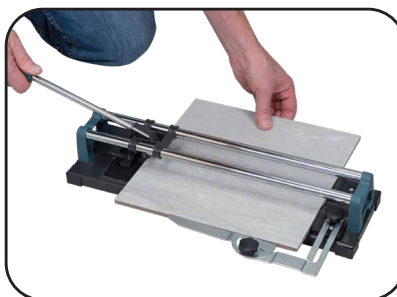

### DIAGONAL

Up to 15" Tile

### TILE DEPTH

3/8" Max.

Score by pushing the cutting wheel with pressure across the face of the tile surface

Snap by applying pressure with the breaker bar until the tile snaps

The ANVIL™ 14" Ceramic and Porcelain Tile Cutter is easy to setup and operate, and is designed with solid chrome-plated steel rails for smooth scoring. This tile cutter can cut ceramic and porcelain tile from 1/4" to 3/8" thick, and has an angled soft grip handle that reduces hand fatigue on the job. It's perfect for a simple, DIY tile installation.
