All-Round Detail Design

45FT 12AWG/3C SJTOW cord is operable and flexible at low temperatures, resisting the effects of oil, water, and sunlight. The case is made of high-quality polypropylene material with high impact resistance.

Reliable 15A Circuit Breaker

When the total current of the connected device exceeds 15A, the built-in circuit breaker automatically cuts off the power supply to keep the device and operator secure. UL listed for high reliability.

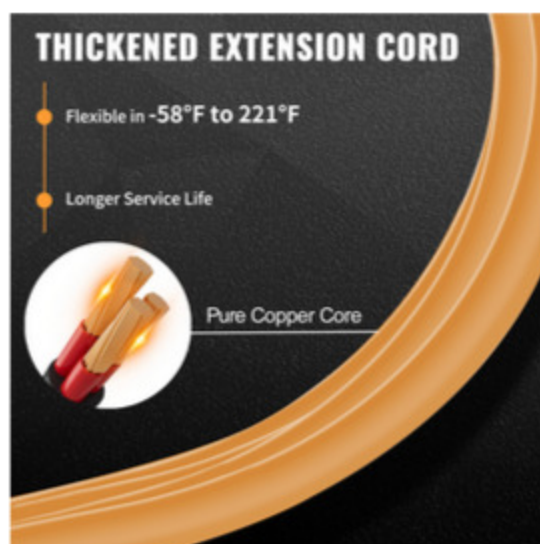

Power Up Anywhere

Whether used in your shop, garage, construction site, or home, our electric cord reels always meet your power needs. Suitable for high-pressure cleaning, landscaping maintenance, vehicle repair, etc.

Longer Coil Spring

The inner coil spring of our retractable power cord reel is added by 1 turn, which is longer and thicker, increasing elasticity and service life while solving retraction problems.

Thickened Extension Cord

45FT 12AWG/3C SJTOW cord is operable and flexible at low temperatures of -58°F to 221°F (-50°C to 105°C). It also resists the effects of oil, water, sunlight, and all-weather conditions.

Only 6 Steps to Install

Quickly mount the retractable power cord reel to your wall or ceiling with a separate bracket for easy use in any job. It comes with a detailed mounting bracket and the appropriate size screw models for easy installation.
