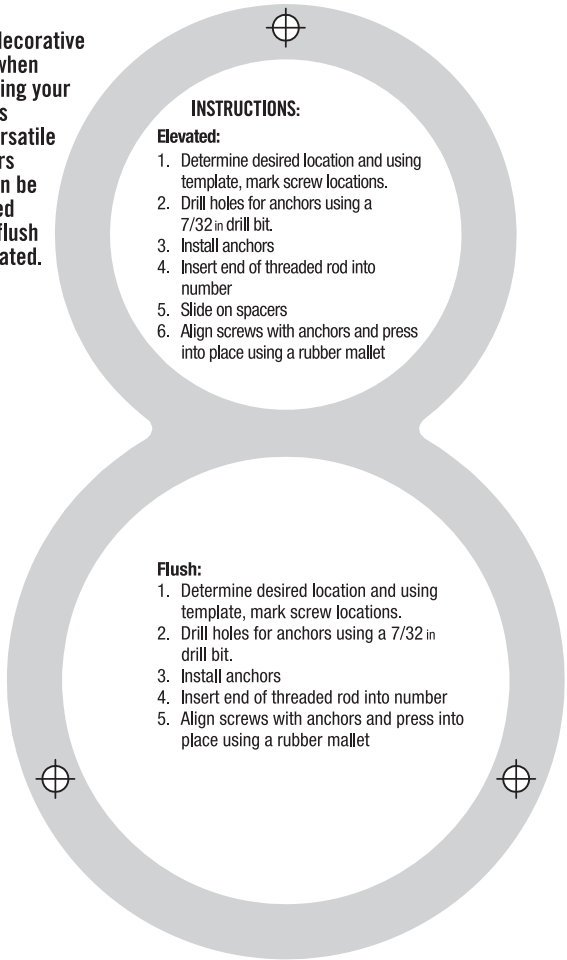
MOUNTING TEMPLATE

Add a decorative touch when displaying your address with versatile numbers that can be mounted either flush or elevated.



INSTRUCTIONS:

Elevated:

1. Determine desired location and using template, mark screw locations.
2. Drill holes for anchors using a 7/32 in drill bit.
3. Install anchors
4. Insert end of threaded rod into number
5. Slide on spacers
6. Align screws with anchors and press into place using a rubber mallet

Flush:

1. Determine desired location and using template, mark screw locations.
2. Drill holes for anchors using a 7/32 in drill bit.
3. Install anchors
4. Insert end of threaded rod into number
5. Align screws with anchors and press into place using a rubber mallet
