SET UP

Please use caution in opening the shipping box. Do not use sharp objects or knives, as you risk cutting into the product. Once the product is out of the shipping box, remove the plastic bag, being careful not to tear or cut your product. Once removed from all packaging, we recommend letting the product sit and become acclimated to room temperature. In less than 5 minutes your wedge pillow will expand to its normal shape/size. In some cases, it may require up to 12 hours for the product to regain its full shape.

If you notice a slight odor when the package is first opened, this is normal for newly manufactured foam and will fade away in a couple days. If you are sensitive to the smell, we suggest letting the pillow air uncovered for 24 hours prior to use.

To adjust the height of the pillow:

1. Unzip the cover

2. Open the cover

3. Remove wedge insert and zip the cover
