Step 1

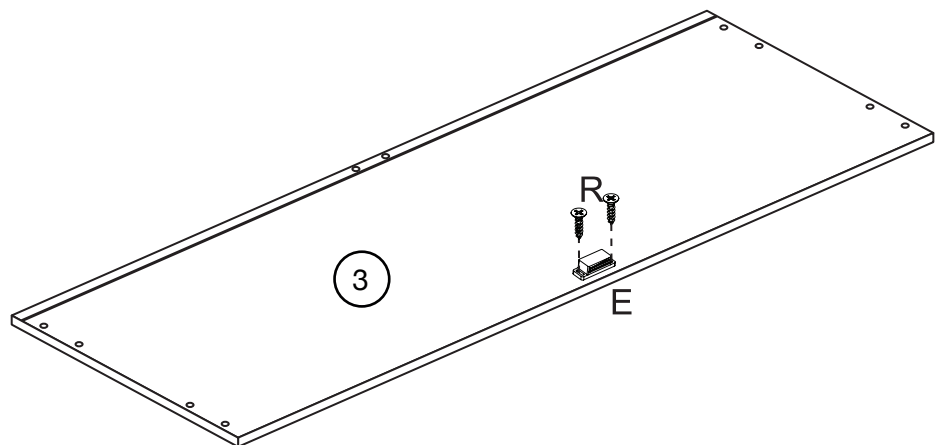

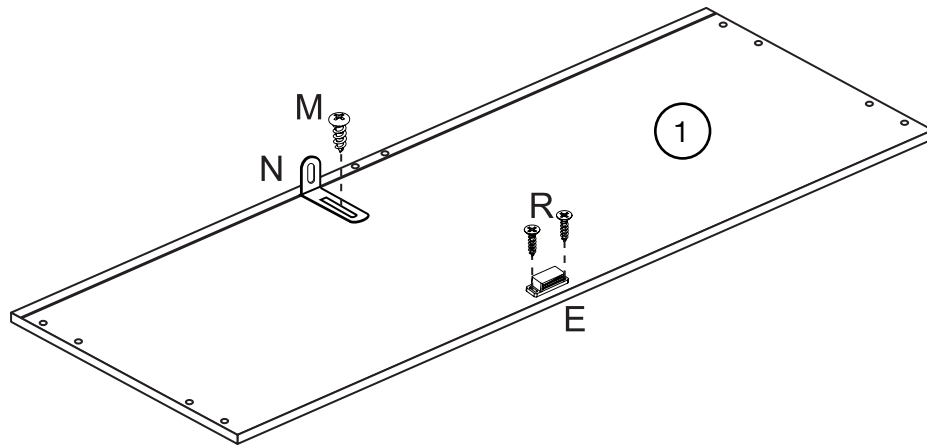

Let's get this thing fired up! Lay down packaging carton or use carpet as a working surface.

Attach parts 11 and 12 to the metal frames (10). We recommend using a Phillips head screwdriver.

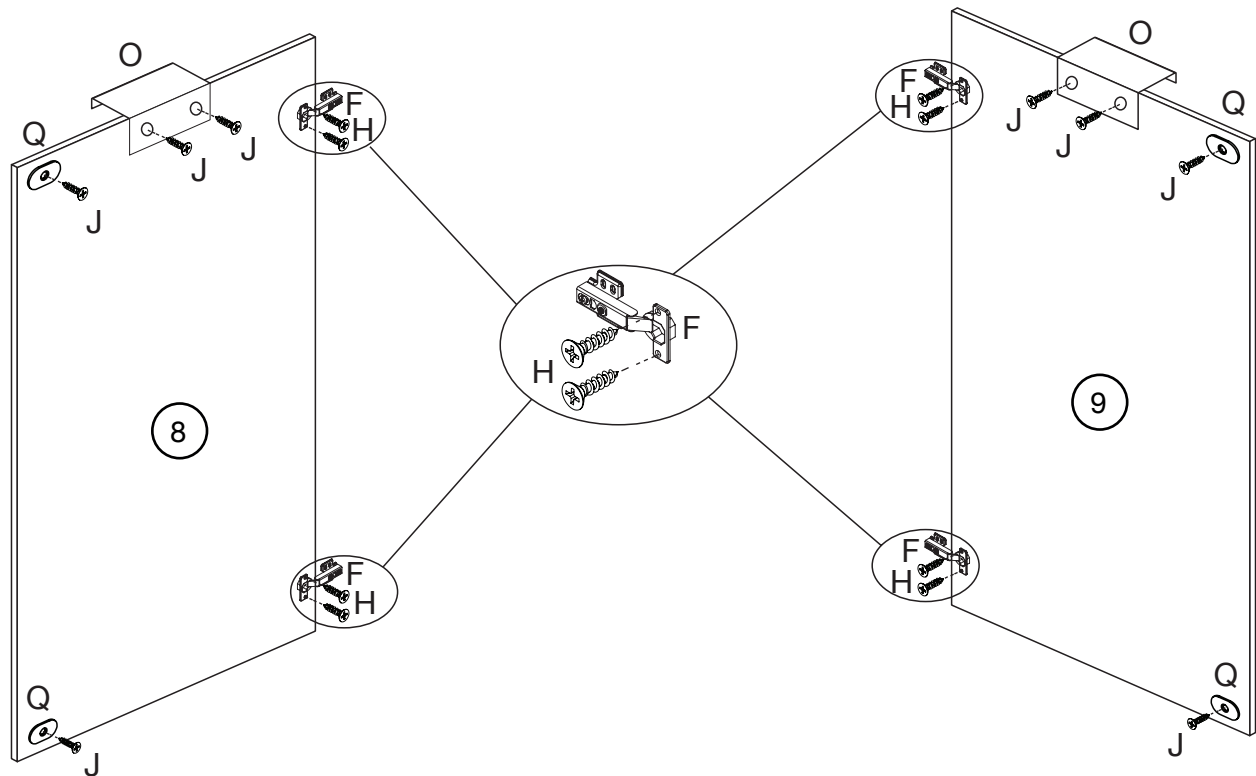

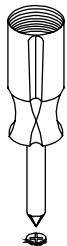

Step 2

Attach the anti-tip hardware and magnetic door catch to the top panel (1) and bottom panel (3).

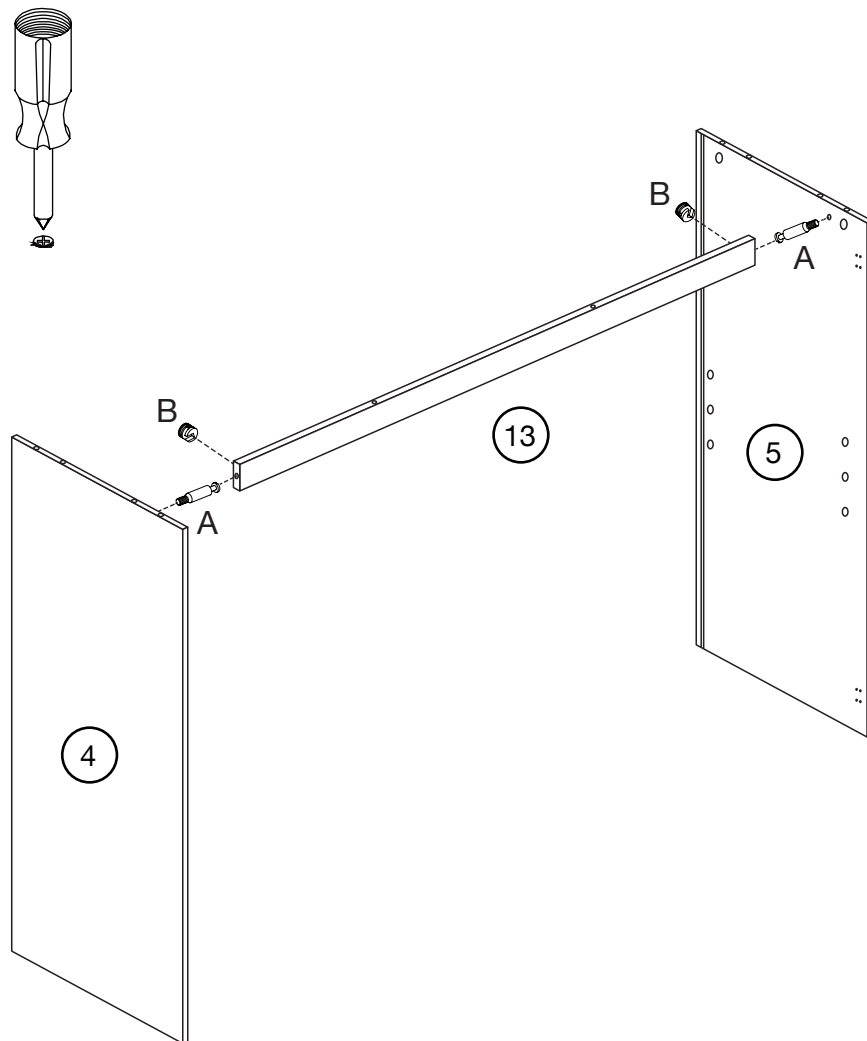

Step 3

Let's get started on the doors!

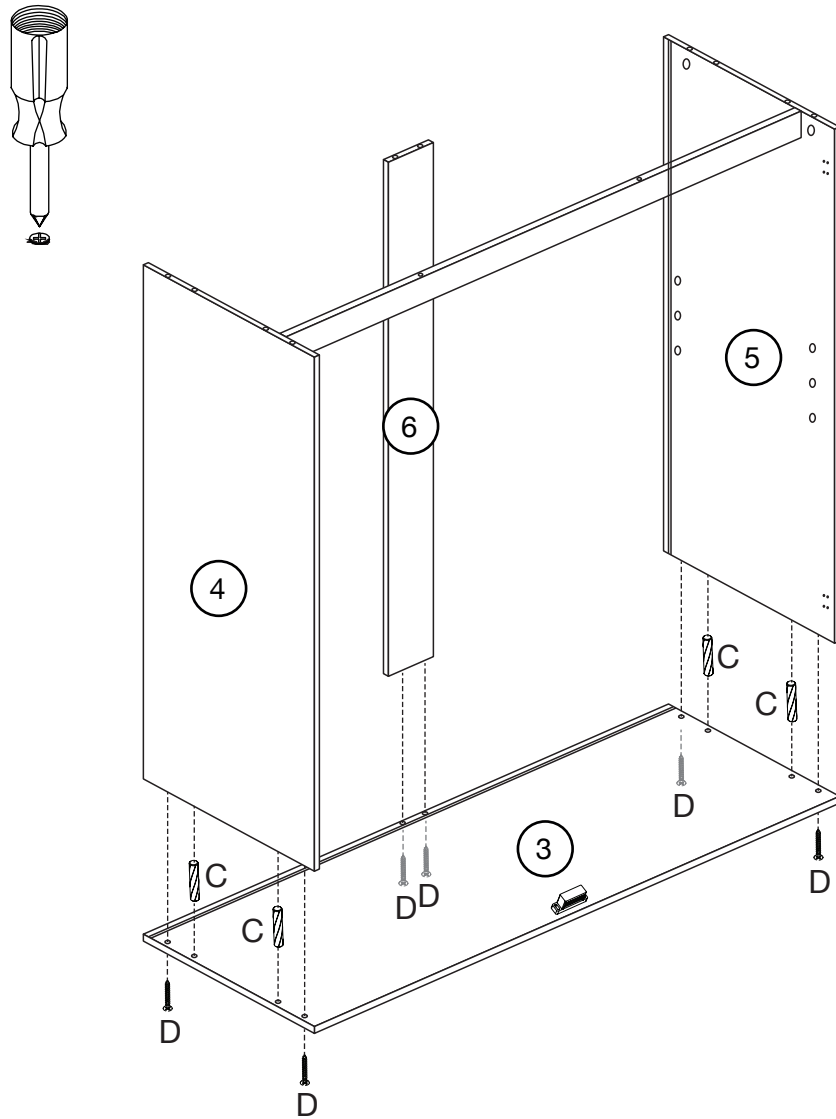

Step 4

Attach the stretcher (13) to the side panels (4) and (5).

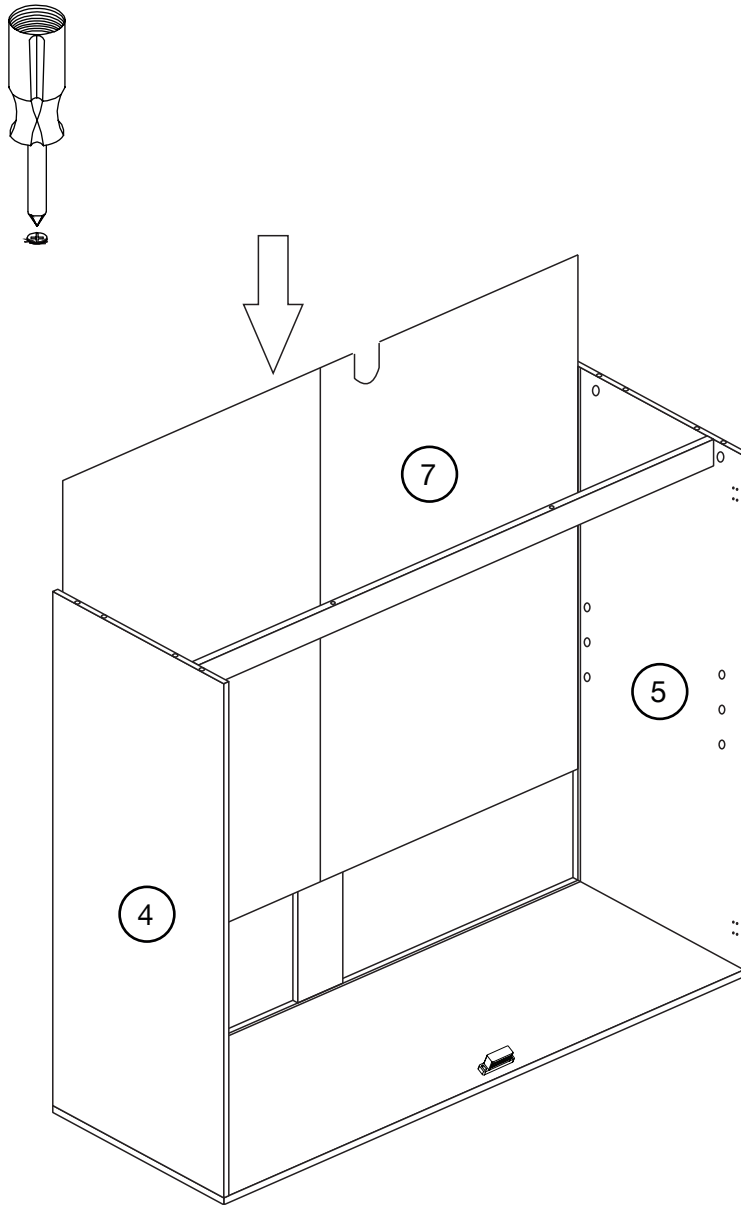

Step 5

Attach the side panels to the bottom panel, along with the back vertical stretcher (6).

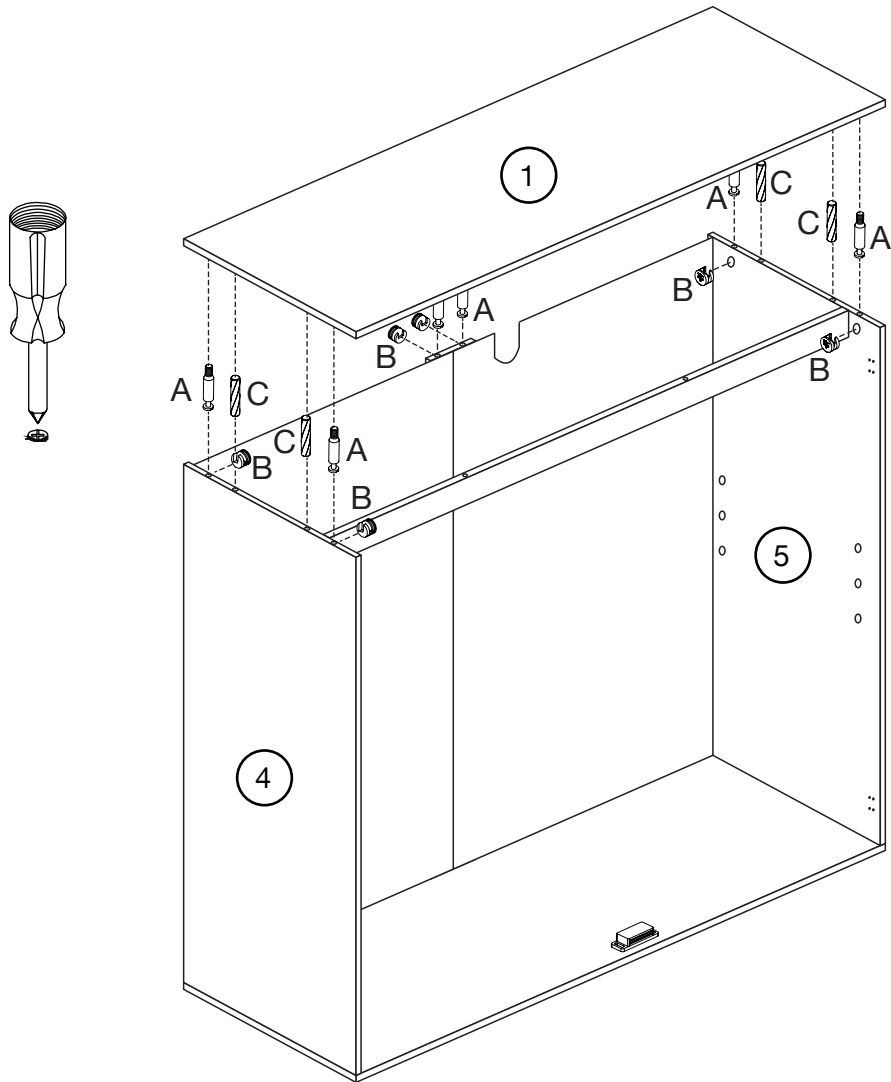

Step 6

Slide in the back panel. Stay strong,
you're over halfway there!

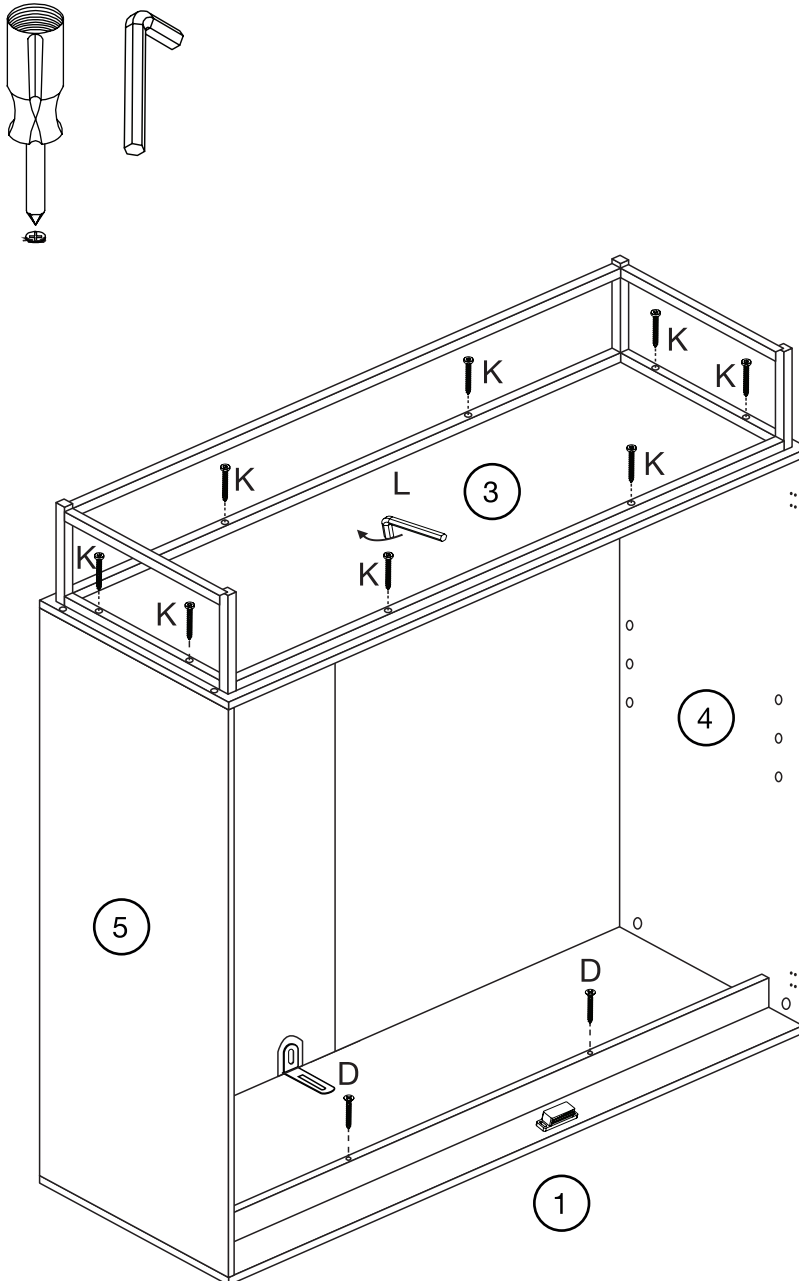

Step 7

Attach the top panel that you completed in Step 2. Now would be a good time to order that pizza you've been thinking about since Step 1.

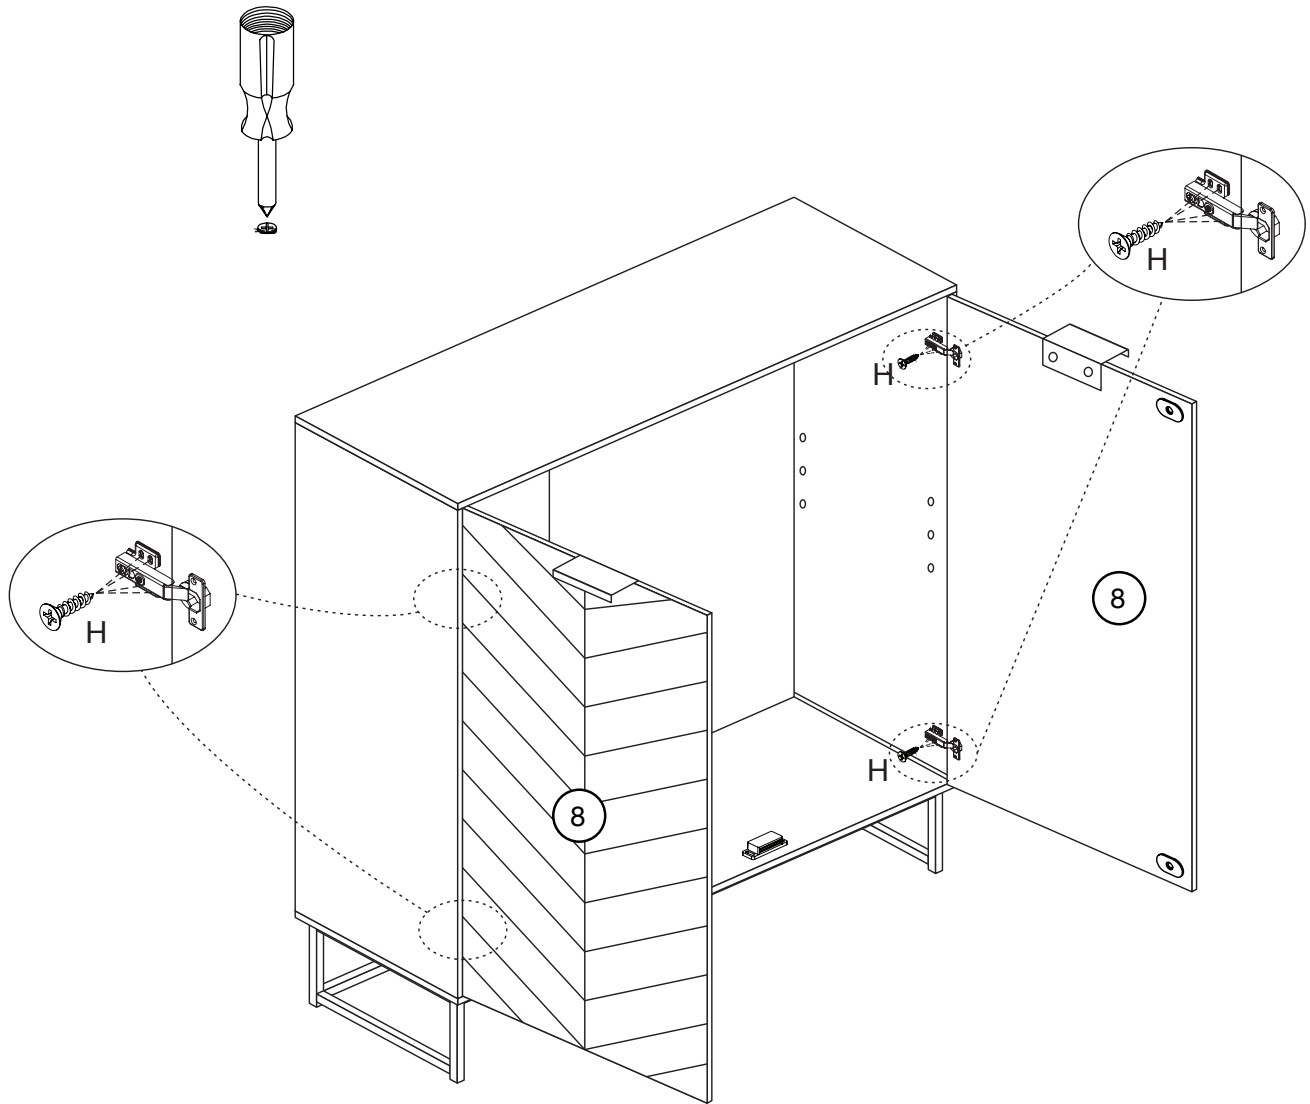

Step 8

Carefully flip the unit over and attach the base that you completed from Step 1.

Step 9

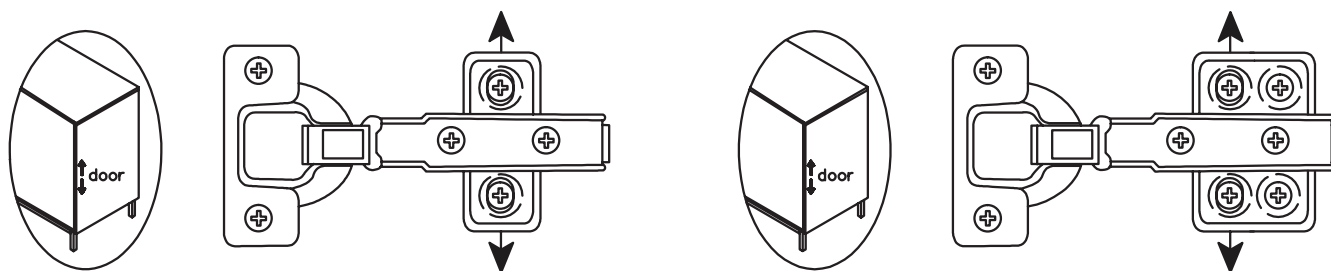

Flip the unit over again so that it's right-side up (we promise this is the last time) and attach the doors and hinges.

Is your cabinet door looking crooked or unevenly spaced?

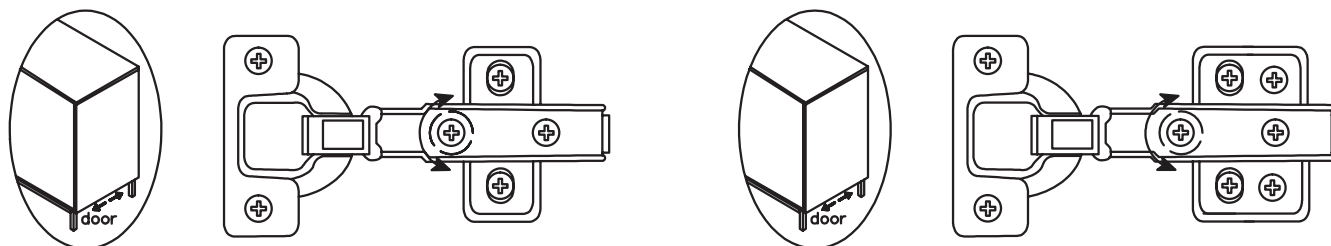

Then you've come to the right place. Follow the illustrations below to get your cabinet door aligned and ready for action.

If your door is too low or too high...

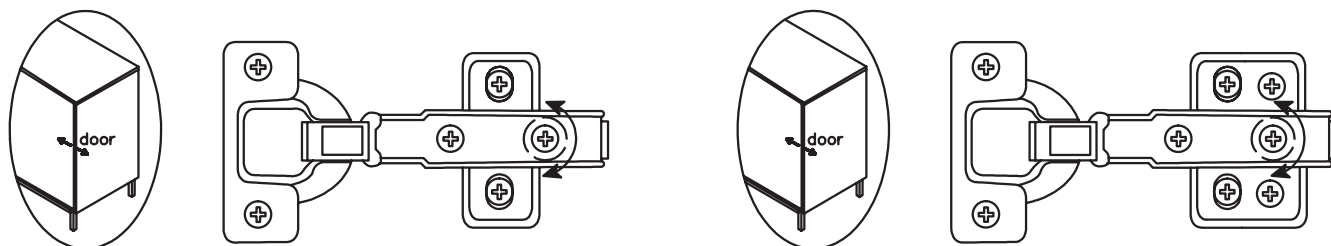

Loosen the height screws, then move the door up or down to make it level.

If the space between your doors is off...

Loosen the side-to-side screws, then screw counter-clockwise to make the gap wider or clockwise to close any gaps.

If you need to adjust the depth of the doors...

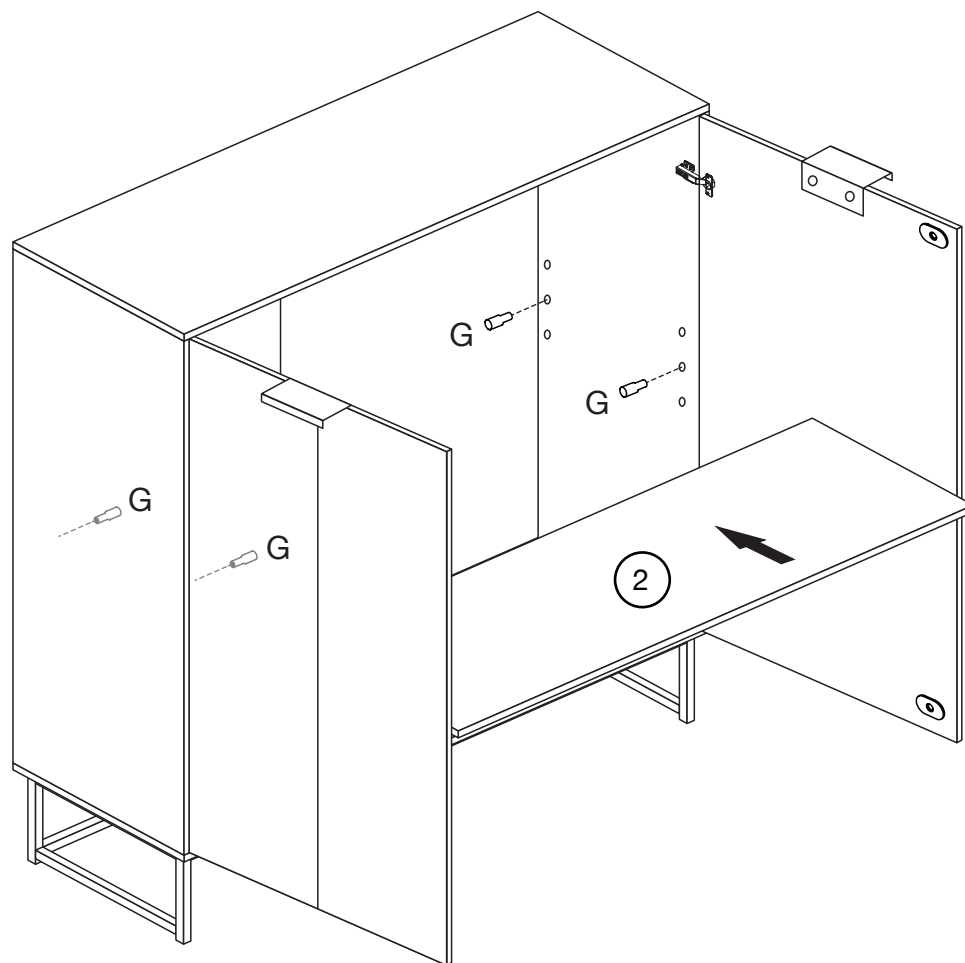

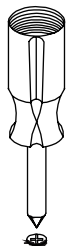

Adjust the in-and-out screws until the door is aligned with the side of the cabinet.

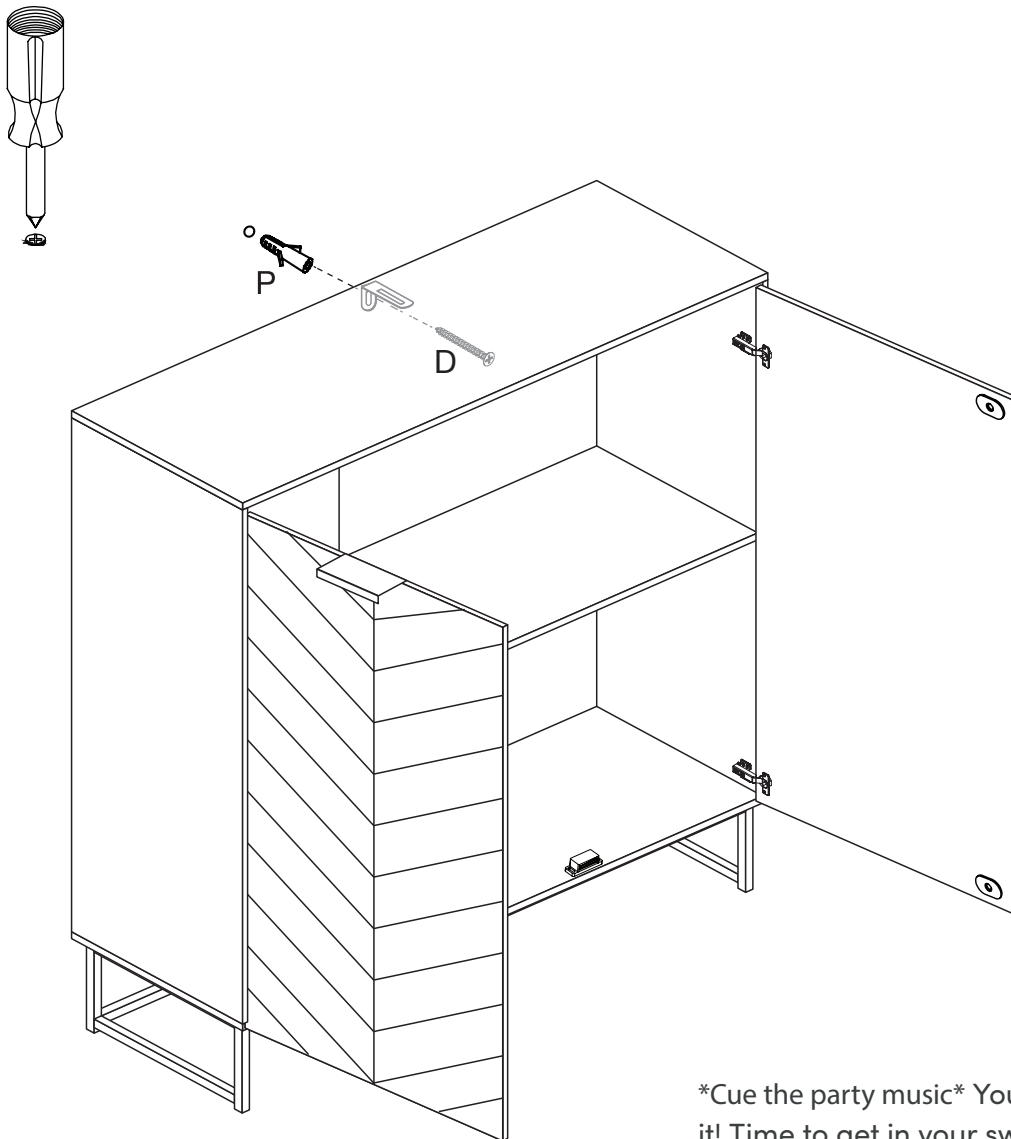

Step 10

Twist on the metal pins and place your shelf in the unit.

Step 11

Safety first! Use the wall anchors to attach your storage unit to the wall.

Cue the party music You did it! Time to get in your sweats and check on that pizza order.

No heartburn, when we handle the return

Replacement

You

We really don't want you to go through the hassle of re-packaging your item
and sending it back, because let's be honest...nobody has time for that.

Safety first, fun later

We want your Enloe Storage Unit to last as long as possible, so we recommend that you tighten the screws 2 weeks after assembly and for added safety check the tightness of all screws every 2 months.

For proper care and treatment of wood and metal please check our website at NathanJames.com/products

Safe use of this product starts with you.

Use this storage unit responsibly with the primary concern for your safety. Follow assembly instructions carefully and inspect product upon receipt and each use.

Nathan James and its parent companies cannot be held legally responsible for any injuries or death resulted from failure to follow instructions or improper use of this product.

Do not modify the structure of this product in any way.

Our products have been tested to meet specific safety measures as they were originally intended to be sold. Any modifications will present the risk of creating significant safety issues which NJ will not be responsible for.

Proper use

- | | |
|---------------|--|
| DO NOT | use for commercial purposes |
| DO NOT | climb on storage unit |
| DO NOT | exceed weight limit |
| DO NOT | leave spilled liquid on storage unit |
| DO NOT | use if storage unit is damaged or broken |
| DO NOT | make temporary repairs |
| DO NOT | use outdoors |

We are only in business if you're happy

For starters, thanks for being you.
