

# Thank You

for bringing me home!

## Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broked stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

# PLANT CARE

## Christmas Cactus

### Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but don't mind medium light

### Water

I don't want my roots to stay wet, so let the top two or so inches of the potting soil dry before you water me again.

### Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

### Features

I show off attractive orchid-like flowers and naturally bloom every year around the holidays.

### Growing tips

While I am a type of cactus, I'm native to tropical rainforests, so don't let me dry out. With good care, I can live for decades, getting bigger and more beautiful with each year.

### Give me friends! I play well with:

Norfolk Island Pine, Poinsettia, Aglaonema
