Warranty Information

1. Introduction

Congratulations on your new sofa! To ensure its longevity and maintain its appearance, follow these guidelines for general use and maintenance. This manual will provide you with essential tips and instructions to keep your sofa in optimal condition.

2. General Use Guidelines

Placement: Avoid placing the sofa in direct sunlight to prevent fading and fabric deterioration. Keep it away from heat sources like radiators and fireplaces to avoid damage to the upholstery and frame.

Weight Distribution: Encourage even weight distribution by rotating seating positions regularly. Avoid sitting on the arms or backrest to prevent structural damage.

Pets: If you have pets, use protective covers to minimize wear and tear from claws and shedding.

3. Cleaning and Maintenance

Regular Cleaning: Vacuum the sofa weekly to remove dust and debris. Use a vacuum cleaner with an upholstery attachment to avoid damaging the fabric.

Fabric Sofas: Use a soft brush to remove surface dirt and pet hair. Follow the manufacturer's cleaning instructions for specific fabric types.

Leather Sofas: Wipe down with a soft, damp cloth. Use a leather conditioner every 6-12 months to keep the leather supple and prevent cracking.

4. Handling Spills and Stains

Immediate Action: Blot spills immediately with a clean, absorbent cloth. Do not rub, as this can push the stain deeper into the fabric.

Water-Based Stains: Use a mild soap solution and a clean cloth to gently blot the stain. Rinse with a damp cloth and blot dry.

Oil-Based Stains: Sprinkle baking soda or cornstarch on the stain to absorb the oil. After a few hours, vacuum the area and clean it with a mild soap solution if necessary.

5. Cushion Care

Fluffing: Fluff and rotate cushions weekly to maintain their shape and even out wear.

Cleaning: Check if the cushion covers are removable and machine washable. Follow the washing instructions carefully. For non-removable covers, spot clean as needed.

6. Upholstery Care
Fabric Upholstery: Use a fabric protector spray to guard against stains and spills. Follow the manufacturer's instructions for application and reapplication intervals.
Leather Upholstery: Avoid using harsh chemicals or cleaners not specifically designed for leather. Regularly dust and condition the leather.
7. Frame and Springs Maintenance
Inspection: Periodically check the frame and springs for signs of damage or wear. Listen for creaking or unusual noises when sitting down, as these can indicate a problem.
Repairs: Tighten any loose screws or bolts. For significant issues, contact a professional for repair.
8. Moving and Transporting
Lifting: Always lift the sofa from the base. Avoid dragging it, as this can damage the legs and frame.
Disassembly: If the sofa can be disassembled, follow the manufacturer's instructions for taking it apart and reassembling it. Use proper padding and protection during transport to prevent damage.
9. Troubleshooting Common Issues
Sagging Cushions: Fluff and rotate cushions regularly. If the cushions are permanently sagged, consider replacing the foam inserts.
Noisy Springs: Check for loose components and tighten them if necessary. Apply a small amount of lubricant to any squeaky springs.
Fabric Pilling: Use a fabric shaver to remove pills. Follow the manufacturer's care instructions to minimize pilling.
10. Warranty Information
Coverage: Review the warranty details provided by the manufacturer. This typically covers defects in materials and workmanship.
Claims: Keep your purchase receipt and warranty information in a safe place. Contact the manufacturer or retailer for instructions on how to file a warranty claim.
By following these guidelines, you can ensure that your sofa remains comfortable and attractive for years to come. Regular maintenance and proper use are key to extending the life of your furniture. Enjoy your sofa!

▲Notice
The packaging of the product package may be updated at any time, please refer to the actual product received.
All colors on our website are for reference only, actual product colors may vary a little bit, due to the different color settings of every screen device.
Please note: most of our sofas are hand-measured, therefore the dimensions are for reference only, and may marginally deviate.
Please confirm whether the size of our living room sets meets your requirements before you buy it!
The cushions are vacuum-packed. After opening the package, please allow 72 hours to let it come back to its original shape.

▲Keep it looking its best

√ Blot spills immediately with a clean, absorbent white cloth.

√ For indoor use only.

√ Avoid direct sunlight.

√ Do not leave newspaper or other printed material lying on the surface.

√ Dimensions of bench-made upholstery may vary slightly.

√ Vacuum regularly.

√ Spot clean using distilled water and water-based cleaning agents, foam, or mild water-free cleaning solvents.

√ Always test a small inconspicuous area first.
