

## Product Features

The Whynter BBR-148SB Beverage Refrigerator is a sophisticated addition to any home and perfect for cooling and storing your favorite beers and canned beverages. With its reversible and elegant full glass door, this beverage refrigerator blend well and accent any décor.

### Built-In Installation Ready

Its standard counter height makes it ideal for in-cabinet installation and is a favorite to replace that old trash compactor space. The front-venting design allows you to install this beverage refrigerator under a kitchen counter or cabinet for a seamless appearance.

### Digital Temperature Control and Soft Internal Lighting

Effortlessly control the LED light and temperature settings of your beverage refrigerator using the digital control panel. While the see-through tempered double pane glass door displays your beverage collection, this unit is also equipped with an interior light that makes it easy to find exactly what you're looking for.

### Balanced Cooling and Auto Defrost

Features fan-forced circulation to maintain an evenly-cooled space ensuring consistent temperatures throughout the interior for more effective and efficient operation. The auto defrost feature also allows for maintenance-free continuous operation (we still recommend powering the unit off during extended periods of non-usage).

### Reversible Door with Lock

This beverage refrigerator has the capability of the door opening from either the left or right side, if you prefer a certain direction or would like the unit to follow the flow of your kitchen design. The cylinder door lock provides protection and additional security from unauthorized access to your beverage refrigerator.

## FEATURES
