Salt lamps are scientifically proven as effective air purifiers. When lit, they emit negative ions that fight against positively charged particles that cause us to feel stuffy and sluggish, hence, resulting in highly soothing experience.

Benefits of Himalayan Salt Lamp

Purifies Air

Energizes

Improves Breathing

Reduces Allergy

Reduces Stress

Improves Sleep

Enjoy the benefits of Himalayan salt lamps in your home that look beautiful and are good for your health and well-being. You can enjoy the benefits of Himalayan salt lamps in any room of your house such as child's bedroom, the study room, TV lounge, computer lab and your own bedroom to help clear the air and give you a good night's sleep.

- The salt lamp neutralizes the air quality, to help improve health and living environment.
- Energy enhancement, bringing about a sense of wellbeing.
- Stabilizes air ion density for healthier living.
- The health benefits of Himalayan salt lamps in a home or office can help with many health problems, such as asthma and allergies.
- Improves concentration, reduces depression, reduces insomnia and help sufferers of ADHD.

- Himalayan salt lamps are effective in rebalancing the body's frequencies and vibrations.
- A Himalayan salt lamp has an immense capability to give off negative ions for years and years, thus maintaining a prolonged healthy living environment for the consumer.
- Himalayan salt lamps are a natural ioniser, ridding the air from dust mites and bacteria, therefore helping improve the quality of air we breathe.
