

3M™ Safety Eyewear

NEW 3M™ SecureFit™ 400 Safety Eyewear

See a clear difference in comfort, safety and fit.

3M™ SecureFit™ Safety Eyewear uses patented 3M™ Pressure Diffusion Technology to help diffuse pressure over the ear, providing game-changing comfort and a secure fit. The lightweight, flat-temple, low-profile design works seamlessly with hearing protection for a difference you can see and feel.

Performance

Flat-temple, low-profile design provides a very comfortable fit with hearing protection while helping to minimize noise leakage

Excellent coverage and good field of vision

Scratch-resistant, anti-fog lenses

Impact-resistant lenses absorb 99.9% of UV radiation

Meets ANSI Z87.1 and OSHA standards

Fit & Comfort

Patented 3M™ Pressure Diffusion Temple Technology for a secure and comfortable fit

Adjustable nose pads and soft-touch inlays increase comfort and provide grip

Lightweight design (19g)

3M

3M™ Safety Eyewear

3M™ Pressure Diffusion Technology

helps diffuse pressure over the ear, enhancing comfort and fit

Scientifically developed for a comfortable, secure fit
