# IMPORTANT SAFEGUARDS

Always follow these safety precautions when using this appliance.

## Getting Ready

1. Read all instructions.
2. **Blades and discs are sharp.** Handle them carefully.
3. **Always unplug from outlet when not in use, before putting on or taking off parts, before removing food and before cleaning. To unplug, grasp plug and pull from electrical outlet. Never pull cord.**
4. Do not use outdoors.
5. Do not let cord hang over edge of table or counter, or touch hot surfaces.
6. Do not operate any appliance with a damaged cord or plug, or after appliance has been dropped or damaged in any way. Return appliance to the nearest authorized service facility for examination, repair or electrical or mechanical adjustment.

## Operation

1. Keep hands as well as spatulas and other utensils away from moving blades or discs while processing food, to prevent the possibility of severe personal injury or damage to food processor. A plastic scraper may be used, but only when the food processor motor is stopped.
2. Avoid coming into contact with moving parts. Never push food down by hand when slicing or shredding. Always use pusher.
3. Make sure motor has completely stopped before removing cover. (If machine does not stop within 4 seconds after you remove the bowl cover assembly, call 1-800-762-0190 for assistance. Do not use the machine.)
4. Never store any blade or disc on motor shaft. To reduce the risk of injury, no blade or disc should be placed on the shaft except when the bowl is properly locked in place and the processor is in use. Store blades and discs, as you would sharp knives, out of reach of children.
5. Be sure cover and feed tube are securely locked in place before operating food processor.
6. Never try to override or tamper with cover interlock mechanism.

## Cleaning

To protect against risk of electrical shock, do not put base in water or other liquids.

## General

1. This appliance should not be used by or near children or individuals with certain disabilities.
2. Do not operate this, or any other motor-driven appliance, while under the influence of alcohol or other substances that affect your reaction time or perception.
3. This food processor is ETL listed for household use. Use it only for food preparation as described in the accompanying recipe and instruction book. Do not use this appliance for anything but its intended use.
4. The use of attachments not recommended or sold by Cuisinart may cause fire, electrical shock or personal injury, or damage to your food processor.
5. To avoid possible malfunction of work bowl switch, never store processor with cover assembly in locked position.
6. Maximum rating of 350 watts is based on attachment that draws greatest current. Other recommended attachments may draw significantly less current.
7. Do not operate your appliance in an appliance garage or under a wall cabinet. **When storing in an appliance garage always unplug the unit from the electrical outlet.** Not doing so could create a risk of fire, especially if the appliance touches the walls of the garage or the door touches the unit as it closes.

**NOTICE:** If your food processor has a plastic case, it has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

Before using your Cuisinart Elemental 8 Food Processor for the first time, wash the work bowl, work bowl cover, pusher, blade, and discs (see Cleaning Instructions on page 10).

1. Place the food processor base on a dry, level countertop with the controls facing you. Do not plug the unit in until it is fully assembled.
2. With the bowl on the base, use the handle to turn the work bowl clockwise to lock it onto the housing base.

## CHOPPING/MIXING/DOUGH BLADE

1. Place the work bowl on top, with the work bowl handle just to the right of center. Turn the work bowl clockwise to lock it onto the housing base.
2. Carefully lift and place the blade over the work bowl accessory adapter. Blade should fit snugly and rest on the bottom of the work bowl.
3. Plug in the housing base.
4. Add desired ingredients to work bowl.
5. Place work bowl cover on work bowl, with the feed tube just to the right of center. Turn clockwise to lock onto work bowl.

1. Place the work bowl on top of the base, with the work bowl handle just to the right of center. Turn the work bowl clockwise to lock it onto the housing base.
2. Choose desired disc.
3. Carefully place disc over accessory adapter, with the side being used facing up.
4. Place work bowl cover onto work bowl, with the feed tube just to the right of center. Turn clockwise to lock onto work bowl.
5. Align pusher with the feed tube opening on the work bowl cover and slide down to the bottom.
6. Plug in the housing base.
7. You are now ready to operate the machine.

# MACHINE CONTROLS

## High and Low Control Buttons

The High and Low controls are buttons that allow the machine to run until Off is selected.

1. Properly assemble and engage the machine.
2. Add ingredients to the work bowl, either through the feed tube or directly into the bowl.
3. Press the High or Low button. The blue LED light will illuminate and the motor will start.
4. Press the Off button when finished.

## Pulse Button

The Pulse control is a button that allows the machine to run only while it is being pressed. This capability provides more accurate control of the duration and frequency of processing. Unless otherwise specified, a pulse should be about one second.

1. With the machine properly assembled and engaged, and ingredients in the work bowl, press the Pulse button repeatedly as needed. The blue LED High light will illuminate upon activation.

# MACHINE FUNCTIONS

## Using the Chopping/Mixing/Dough Blade

### Chopping

- For raw ingredients: peel, core and/or remove seeds and pits. Food should be cut into even, ½ to 1-inch pieces. Foods cut into same size pieces produce the most even results.
- Pulse food in 1-second increments to chop. For the finest chop, either hold the pulse down or press High or Low to run the machine continuously. Watch ingredients closely to achieve desired consistency and scrape the work bowl as necessary. Low speed is recommended for making doughs and batters. High speed is recommended for most other chopping, processing and slicing/shredding tasks.

### Puréeing

- To purée fresh fruits or cooked fruits/vegetables: Ingredients should be cut into 1-inch pieces; a smooth purée is best achieved when all the pieces are equal in size. Pulse to initially chop and then process High or Low until food is puréed; scrape the work bowl as necessary. Do not use this method to purée cooked white potatoes.
- To purée solids for a soup or sauce: Strain the solids from the liquid and process the solids alone. Add cooking liquid and process as needed.

---

## Using the Reversible Slicing/ Shredding Discs

- The slicing discs make whole slices. They slice fruits and vegetables, cooked meat and semi-frozen raw meat. The shredding discs shred most firm and hard cheeses. They also shred vegetables like potatoes, carrots and zucchini.
- Always pack food in the feed tube evenly for slicing and shredding. The food will dictate the amount of pressure: Use light pressure for soft foods, medium pressure for medium foods, and firm pressure for harder foods. Always process with even pressure.
- For round fruits or vegetables: Remove a thick slice on the bottom of the food so that it sits upright in the feed tube. If food does not fit in the feed tube, cut in half or quarter to fit. Process with even pressure.
- For small ingredients like mushrooms, radishes or strawberries: Trim the ends so the food sits upright in the feed tube.
- When slicing or shredding cheese, be sure that the cheese is well chilled.
- To shred leafy vegetables like lettuce or spinach: Roll leaves together and stand them up in feed tube. Process with even pressure.

**NOTE: Always use pusher when slicing or shredding. Never put your hands in the feed tube when unit is running.**

# USER GUIDE

You can slice, shred and chop a multitude of vegetables and fruits in the Cuisinart Food Processor. What you may not know is that the food processor is the perfect tool for a number of other tasks, such as softening butter, making bread crumbs, making baby food, etc. Here is a guide that will help you in preparing just about anything!

FOOD	TOOL	DIRECTIONS
Soft Cheeses (ricotta, cream cheese, cottage cheese, etc.)	Chopping/Mixing/Dough Blade	Have cheese at room temperature. When applicable, cut into 1-inch pieces. Process until smooth, stopping to scrape down the sides of the bowl as needed. Perfect for making cheesecakes, dips, pasta fillings, and more.
Firm Cheeses (Cheddar, Swiss, Edam, Gouda, etc.)	Slicing/Shredding Disc	Cheese should be well chilled before slicing/shredding. Cut to fit feed tube. Use light to medium pressure when slicing/shredding.
Hard Cheeses (Parmesan, Romano, etc.)	Chopping/Mixing/Dough Blade Slicing/Shredding Disc	Chill cheese. If using the chopping blade, cut into ½-inch pieces. Pulse to break up and then process until finely grated. This will produce a nice grated cheese. If slicing or shredding, cut to fit feed tube. Use light to medium pressure when slicing/shredding.
Baby Food	Chopping/Mixing/Dough Blade	As for all fruit and vegetable purées, cut ingredients into ½ to 1-inch pieces. Steam ingredients until completely soft. Pulse to chop, then process until completely smooth (add steaming liquid through the feed tube when processing if necessary). To ensure there are no lumps, press mixture through a fine mesh strainer. Keeps frozen in ice cube trays for individual 1-ounce portions.
Butter	Chopping/Mixing/Dough Blade Slicing/Shredding Disc	<i>For creaming:</i> Have butter at room temperature. Cut into 1-inch pieces. Process, scraping bowl as necessary. For compound (flavored) butters, process flavoring ingredients, such as herbs, zest, vegetables, etc., before adding butter. <i>For shredding/slicing:</i> Freeze briefly. Use light to medium pressure to shred or slice. Shredded butter is great for preparing certain pastry doughs. Sliced butter is great for serving alongside corn on the cob or freshly made rolls.
Bread/Cookie/Cracker/Chip Crumbs	Chopping/Mixing/Dough Blade	Break into pieces. Pulse to break up, and then process until desired consistency. This will make perfect bread/cracker/chip crumbs for coating meats and fish. Processed cookies make delicious pie and cake crusts!
Milk Shakes/Smoothies	Chopping/Mixing/Dough Blade	For milk shakes, first add ice cream. While unit is running, add milk through the feed tube until desired consistency is achieved. For smoothies, add fruit first, then add the liquid through the feed tube while unit is running.
Fresh Herbs	Chopping/Mixing/Dough Blade	Wash and dry herbs VERY well. Pulse to roughly chop. Continue pulsing until desired consistency is achieved.
Nuts	Chopping/Mixing/Dough Blade	Pulse to chop to desired consistency. To make a nut butter, pulse to break up, and then process until smooth, stopping to scrape down as needed.
"Ice Cream"	Chopping/Mixing/Dough Blade	Put frozen fruit cut into 1-inch pieces into the work bowl, with liquid (juice or milk), any desired sweeteners, such as sugar, honey, simple syrup, and other flavors. Process until smooth.
Whipped Cream	Chopping/Mixing/Dough Blade	Process well-chilled cream until cream begins to thicken. Add sugar as desired; process continuously until cream reaches desired consistency. This cream is dense and perfect as a whipped topping for cake or ice cream.
Superfine Sugar	Chopping/Mixing/Dough Blade	Process granulated sugar for about 1 minute until finely ground. Excellent for using in meringues and other baked goods.
Ground Meat	Chopping/Mixing/Dough Blade	Cut meat into ½-inch pieces. Pulse to chop, about 14 long pulses, or until desired consistency is achieved. If a purée is desired, continue to process. Never chop/purée more than ¾ pound at one time.

## CLEANING, STORAGE AND MAINTENANCE

- Keep your Cuisinart Elemental 8 Food Processor ready to use on the kitchen counter. When not in use, leave it unplugged.
- Keep the blade and discs out of the reach of children.
- All parts except the housing base are dishwasher safe, and we recommend washing them in the dishwasher on the **top rack only**. Due to intense water heat, washing the work bowl, cover and accessories on the bottom rack may cause damage over time. Insert the cover with the feed tube facing up to ensure proper cleaning. Insert the work bowl and pusher upside down for drainage. Remember to unload the dishwasher carefully wherever you have placed sharp blades and discs.
- To simplify cleaning, rinse the work bowl, cover, pusher and blade or disc immediately after use so food won't dry on them. Be sure to position the pusher upside down for drainage. If food lodges in the pusher, remove it by running water through it, or use a bottle brush.
- If you wash the blade and discs by hand, do it carefully. When handling, use the plastic hubs. Avoid leaving them in soapy water where they may disappear from sight. To clean the metal blade, fill the work bowl with soapy water, hold the blade by its plastic center and move it rapidly up and down on the center shaft of the bowl. Use of a spray attachment is also effective. If necessary, use a brush.
- The work bowl is made of SAN plastic. It should not be placed in a microwave oven.
- The housing base may be wiped clean with a soapy, non-abrasive material. Be sure to dry it thoroughly.
- If the feet leave spots on the counter, spray them with a spot remover and wipe with a damp sponge.
- If any trace of the spot remains, repeat the procedure and wipe the area with a damp sponge and nonabrasive cleaning powder.

**IMPORTANT:** Never store any blade or disc on the motor shaft. No blade or disc should be placed on the shaft except when the processor is about to be used.

**MAINTENANCE:** Any other servicing should be performed by an authorized service representative.

## FOR YOUR SAFETY

- Like all powerful electrical appliances, a food processor should be handled with care. Follow these guidelines to protect yourself and your family from misuse that could cause injury.
- Handle and store metal blade and discs carefully. Their cutting edges are very sharp.
- Never put blade or discs on the motor shaft until the work bowl is locked in place.
- Always be sure that the blade or disc is down on motor shaft as far as it will go.
- Always insert the metal blade in the work bowl before putting ingredients in bowl.
- When slicing or shredding food, always use the pusher. Never put your fingers or spatula into feed tube.
- Always wait for the blade or disc to stop spinning before you remove the pusher assembly or cover from the work bowl.
- Always unplug the unit before removing food, cleaning, or putting on or taking off parts.
- Always remove work bowl from base of machine before you remove the chopping/mixing/dough blade.
- Be careful to prevent the chopping blade from falling out of the work bowl when emptying the bowl. Remove it before tilting the work bowl.

## TECHNICAL DATA

The motor in your food processor operates on a standard line operating current. The appropriate voltage and frequency for your machine are shown on a label on the bottom of the base.

An automatic, temperature-controlled circuit breaker in the motor ensures complete protection against motor burnout. If the processor runs for an exceptionally long time when chopping, mixing or kneading a thick or heavy mixture in successive batches, the motor may overheat. If this happens, the processor will stop. Turn it off and wait for the motor to cool before proceeding. It will usually cool within 10 minutes. In extreme cases, it could take an hour.

Safety switches prevent the machine from operating when the work bowl or the cover is not locked into position. The motor stops within seconds when the motor is turned off; and when the pusher assembly is removed, a fast-stop circuit also enables the motor to stop within seconds.

Cuisinart offers a Limited Two-Year Warranty on the entire machine.

# TROUBLESHOOTING

## Food Processing

**1. Problem:** The food is unevenly processed.

**Solution:**

- The ingredients should be cut evenly into ½ to 1-inch pieces before processing.
- Process in batches to avoid overloading.

**2. Problem:** Slices are uneven or slanted.

**Solution:**

- Place evenly cut food, cut side down, into the feed tube.
- Apply even pressure on the pusher.

**3. Problem:** Food falls over in feed tube.

**Solution:**

- Feed tube should be packed full for best results.

**4. Problem:** Some food remains on top of the disc.

**Solution:**

- It is normal for small pieces to remain; cut remaining bits by hand and add to processed ingredients.

## Dough Kneading

**1. Problem:** Motor slows down.

**Solution:**

- Amount of dough may exceed maximum capacity of your food processor. Remove half and process in two batches.
- Dough may be too wet (see number 8).  
If motor speeds up, continue processing. If not, add more flour, 1 tablespoon at a time, until the motor speeds up. Process until dough cleans the sides of the work bowl.

**2. Problem:** Blade doesn't incorporate ingredients.

**Solution:**

- Always start the food processor before adding liquid. Add liquid in a slow, steady stream, or through the drizzle hole in the pusher, allowing the dry ingredients to absorb it. If too much liquid is added, wait until ingredients in the work bowl have mixed, then add remaining liquid slowly (do not turn off the machine). Pour liquid onto dough as it passes under feed tube opening; do not pour liquid directly onto bottom of the work bowl.

**3. Problem:** Blade rises in work bowl.

**Solution:**

- Excessively sticky dough can cause blade to rise. Carefully reinsert blade and immediately add 2 tablespoons of flour through the feed tube while the machine is running.

**4. Problem:** Dough doesn't clean inside of the work bowl.

**Solution:**

- Amount of dough may exceed maximum capacity of your food processor. Remove half and process in two batches.
- Dough may be too dry (see number 7).
- Dough may be too wet (see number 8).

**5. Problem:** Nub of dough forms on top of blade and does not become uniformly kneaded.

**Solution:**

- Stop machine, carefully remove dough, divide it into 3 pieces and redistribute them evenly in the work bowl.

**6. Problem:** Dough feels tough after kneading.

**Solution:**

- Divide dough into 2 or 3 pieces and redistribute evenly in bowl. Process 10 seconds or until uniformly soft and pliable.

**7. Problem:** Dough is too dry.

**Solution:**

- While machine is running, add water, 1 tablespoon at a time, until dough cleans the inside of the bowl.

**8. Problem:** Dough is too wet.

**Solution:**

- While machine is running, add flour, 1 tablespoon at a time, until dough cleans the inside of the bowl.

## Technical

**1. Problem:** The motor does not start.

**Solution:**

- There is a safety interlock to prevent the motor from starting if it is not properly assembled. Make sure the work bowl and work bowl cover are securely locked into position.
- If the motor still will not start, check the power cord and outlet.

**2. Problem:** The food processor shuts off during operation.

**Solution:**

- The cover may have become unlocked; check to make sure it is securely in position.
- A safety protector in the motor prevents the motor from overheating, which is caused by excessive strain. Press the Off control button and wait 20 to 30 minutes to allow the food processor to cool off before resuming.

**3. Problem:** The motor slowed down during operation.

**Solution:**

- This is normal as some heavier loads (e.g., slicing/shredding cheese) may require the motor to work harder. Simply reposition the food in the feed tube and try again.
- The maximum load capacity may have been exceeded. Remove some of the ingredients and continue processing.

**4. Problem:** The food processor vibrated/moved around the countertop during processing.

**Solution:**

- Make sure the rubber feet at the bottom of the unit are clean and dry. Also make sure that the maximum load capacity is not being exceeded.
- This is normal as some heavier loads (e.g., slicing/shredding cheese) may require the motor to work harder.

## BASIC FRESH BREADCRUMBS

There is no need to buy breadcrumbs when you can make them with your Cuisinart® Food Processor in no time at all.

4 SLICES WHITE BREAD

Makes  $\frac{2}{3}$  cup

1. Preheat oven to 325°F. Bake slices of bread in a single layer for about 20 minutes or until bread is completely dried out. (Since you are only baking four slices of bread, this is the perfect task for your toaster oven, saving energy and money.)
2. Insert the chopping blade into the work bowl of the food processor. Directly into the work bowl, break the bread into pieces and pulse 6 to 8 times, then process on High until desired texture is achieved, about 30 to 60 seconds.

**Note:** Breadcrumbs can also be processed from day-old bread. Simply break into uniform pieces and follow above instruction until finely chopped.

**Tip:** For seasoned breadcrumbs, add  $\frac{1}{4}$  teaspoon each dried oregano, dried basil, garlic powder and ground onion flakes to toasted bread and process as above.

# DILL BUTTER

Using a high-quality European-style butter makes a difference, so splurge on a good brand for this recipe. We feature it in our Radish - Dill Tea Sandwiches, but a pat on top of grilled or roasted salmon is another great use for it.

- ¼ CUP FRESH DILL
- ½ CUP (1 STICK) GOOD QUALITY BUTTER, ROOM TEMPERATURE AND CUT INTO 4 PIECES
- 2 PINCHES KOSHER SALT
- PINCH FRESHLY GROUND BLACK PEPPER

Makes ½ cup

1. Insert the chopping blade into the work bowl of the food processor.
2. Put the dill into the work bowl and process on High to chop, about 10 seconds.
3. Add the butter, salt and pepper. Process on High, scraping down as needed, for about 10 seconds until thoroughly combined.
4. Taste and adjust seasoning accordingly.

# TAHINI DRESSING

Tahini (a paste of ground sesame seeds) can now be found in most grocery stores. Be sure to stir well before measuring out, as it naturally separates in its jar. This dressing is a perfect match for our Falafel on page 47, but is also just as delicious over mixed greens.

1	GARLIC CLOVE
1/3	CUP TAHINI
1/4	CUP WATER, PLUS MORE AS NEEDED
2	TABLESPOONS FRESH LEMON JUICE
1	TEASPOON HONEY
3/4	TEASPOON KOSHER SALT
1/4	TEASPOON FRESHLY GROUND BLACK PEPPER
1/2	CUP EXTRA VIRGIN OLIVE OIL

Makes about 1 cup

1. Insert the chopping blade into the work bowl of the food processor. With the machine running on High, drop the garlic through the feed tube. Allow to process until finely chopped. Stop machine to scrape down sides. Add the tahini, 1/4 cup of water, lemon juice, honey, salt and pepper.
2. Turn machine on Low to process while adding the oil through the drizzle hole in the pusher. Continue to process until desired consistency. If dressing seems too thick, process in up to an additional 1/4 cup of water. Adjust seasoning to taste.

\*Raw egg warning: Caution is suggested in consuming raw and lightly cooked eggs due to the slight risk of salmonella or other food-borne illness. To reduce this risk, we recommend you use only fresh, properly refrigerated, clean, grade A or AA eggs with intact shells, and avoid contact between the yolks or whites and the shell.

# MAYONNAISE

Taste the difference in homemade mayonnaise.

3/4	CUP VEGETABLE OIL

Makes 1 cup

1. Insert the chopping blade into the work bowl of the food processor. Process the egg yolks, salt, mustard, lemon juice and water on Low until smooth, about 30 seconds. With the machine running, add the oil through the drizzle hole in the pusher until all oil is incorporated and the mayonnaise is emulsified and homogenous.
2. Scrape down sides; taste and adjust seasoning accordingly.

**Note:** For fresh herb mayonnaise: process 1/3 cup firmly packed fresh herbs (e.g., parsley, dill, tarragon, basil, etc.), stems removed, with the yolks before adding the oil.

For a bolder-flavored mayonnaise, increase the salt by 1/4 teaspoon, the Dijon by 1/2 teaspoon and lemon juice to 1 tablespoon.

# SAUSAGE BREAD (STROMBOLI STYLE)

This recipe is great for a hungry crowd and can easily be doubled. We use a combination of sweet and hot sausage in this bread, but feel free to use whatever suits your taste.

- 2** TABLESPOONS VEGETABLE OIL, DIVIDED
- 1** SMALL FENNEL BULB, FRONDS REMOVED (RESERVED FOR ANOTHER USE), QUARTERED AND CORED
- 2** GARLIC CLOVES, SMASHED
- ¼ TO ½** TEASPOON KOSHER SALT
- 4** OUNCES REGULAR MOZZARELLA, DIVIDED
- ½** POUND SWEET ITALIAN SAUSAGE, CASINGS REMOVED
- ¼** POUND HOT ITALIAN SAUSAGE, CASINGS REMOVED
- 2** TABLESPOONS WHITE WINE
- 1** RECIPE PIZZA DOUGH (PAGE 54)  
UNBLEACHED, ALL-PURPOSE FLOUR, FOR ROLLING DOUGH  
EGG WASH (1 LARGE EGG LIGHTLY BEATEN WITH 1 TEASPOON WATER)

Makes one 14-inch roll

1. Preheat oven to 400°F with rack in the middle of the oven. Lightly coat a baking sheet with 1 tablespoon of the oil and set aside.
2. Heat remaining oil in a 12-inch skillet over medium heat.
3. While the oil is heating, insert the medium slicing disc into the work bowl of the food processor and slice the fennel on High. Remove and add to the hot skillet with the garlic and ¼ teaspoon of the salt. Sauté for about 8 to 10 minutes until the fennel is softened and lightly browned. While fennel and garlic are cooking, remove the slicing disc and flip over to insert the shredding disc side. Fit the mozzarella into the feed tube and shred on High; reserve in bowl.
4. Once the fennel has cooked, remove and reserve in a separate bowl. Return pan to the heat and break sausage up into medium-size chunks directly into the pan. Cook until sausage is browned with no pink, about 5 to 7 minutes. Return fennel to the pan and stir to combine. Add the wine and scrape any bits on the bottom of the pan with a wooden spoon. Cook until wine has evaporated, about 1 minute, and remove pan from heat. Remove and discard garlic and stir in ½ cup of the mozzarella. Set aside to cool slightly.

5. Punch down pizza dough on a lightly floured surface. With the tips of your fingers, gently press out into a 14 x 8-inch rectangle, turning and stretching as needed. Gently lift dough onto prepared baking sheet and reshape if necessary. If any tears appear, pinch the dough back together.
6. Evenly spread sausage mixture all over the dough in a single layer, leaving a 1-inch border around the outside. Sprinkle remaining cheese evenly over the sausage mixture.
7. Brush the border of the dough with the egg wash. Starting with the long end closest to you, roll the dough like a jelly roll to the center of the rectangle. Take the long end farthest from you and tightly pull it back over the dough in the center to cover and complete the roll. Pinch to seal all along the seam. Fold the ends of the dough in on each side and pinch to seal. Roll the dough over so it is seam-side down and arrange in the center of the baking sheet. Brush all over with egg wash, and with a paring knife cut 3 evenly spaced slits in the top.
8. Bake for 30 minutes, rotating the pan halfway through cooking, or until golden brown and cooked through. Remove and allow bread to rest 5 minutes before slicing. Serve warm.

**TIP:** For an ultimate version, combine the flavors of both stuffed breads (see next recipe) into one.

- 1 BUNCH BROCCOLI RABE (NO MORE THAN 1 POUND), TRIMMED AND CUT INTO 2-INCH PIECES
- $\frac{3}{4}$  TEASPOON KOSHER SALT, DIVIDED
- $\frac{1}{8}$  TEASPOON RED PEPPER FLAKES
- $\frac{1}{4}$  OUNCE PECORINO ROMANO
- $\frac{1}{2}$  CUP WHOLE MILK RICOTTA

- UNBLEACHED, ALL-PURPOSE FLOUR, FOR ROLLING DOUGH
- 1 RECIPE PIZZA DOUGH (PAGE 54)
- EGG WASH (1 EGG BEATEN LIGHTLY WITH 1 TEASPOON WATER)

Makes one 14-inch roll

1. Preheat oven to 400°F with rack in the middle of the oven. Lightly coat a baking sheet with 1 tablespoon of the oil and set aside.
2. Heat the remaining oil in a 12-inch sauté pan over medium heat until shimmering.
3. While the oil is heating, insert the chopping blade into the work bowl of the food processor. With the unit running on High, drop the garlic through feed tube to chop.
4. Add broccoli rabe to the skillet – it will look like a lot, but will shrink as it cooks. Season with  $\frac{1}{4}$  teaspoon of the salt and sauté for about 7 to 8 minutes, or until just tender. Halfway through cooking, stir in the garlic and red pepper flakes. Remove from the heat and set aside to cool slightly.
5. While the broccoli rabe is cooking, put the pecorino cheese into the work bowl, still fitted with the chopping blade, and process on High to finely grate. Put into a medium-size mixing bowl with the ricotta, nutmeg, remaining salt and pepper. Once the broccoli rabe has cooked, add it to the other ingredients and stir to completely combine.
6. Punch down pizza dough on a lightly floured surface. With the tips of your fingers, gently press out dough into a 14 x 8-inch rectangle, turning and stretching as needed. Gently lift dough onto prepared baking sheet and reshape if necessary. If any tears appear, pinch the dough back together.
7. Evenly spread the broccoli-cheese mixture all over the dough in a single layer, leaving a 1-inch border around the outside.
8. Brush the border of the dough with the egg wash. Starting with the long end closest to you, roll the dough like a jelly roll to the center of the rectangle.

Take the long end farthest from you and tightly pull it back over the dough in the center to cover and complete the roll. Pinch to seal all along the seam. Fold the ends of the dough in on each side and pinch to seal. Roll the dough over so it is seam-side down and arrange in the center of the baking sheet. Brush all over with egg wash, and with a paring knife cut 3 evenly spaced slits in the top.

9. Bake for 30 to 35 minutes, rotating the pan halfway through cooking, or until golden brown and cooked through. Remove and allow bread to rest 5 minutes before slicing. Serve warm.

# CREAMY SWEET POTATO SOUP

This velvety soup is perfect for a brisk fall day.

- 2 TABLESPOONS UNSALTED BUTTER
- 1 GARLIC CLOVE
- 1 ½-INCH PIECE GINGERROOT, PEELED
- 1 LEEK, TRIMMED AND CUT INTO 2-INCH PIECES
- ½ TEASPOON KOSHER SALT, DIVIDED  
PINCH FRESHLY GROUND BLACK PEPPER
- 2 MEDIUM SWEET POTATOES (ABOUT 1 POUND), PEELED AND CUT TO FIT THE FEED TUBE (RESERVE IN COLD WATER IF NOT USING IMMEDIATELY)
- ¼ TEASPOON GROUND CINNAMON  
PINCH CAYENNE
- 2 CUPS CHICKEN OR VEGETABLE BROTH, LOW SODIUM
- ½ TO ¾ CUP HEAVY CREAM (OPTIONAL)

Makes about 3 cups

1. Put the butter in a medium to large pot over low heat.
2. While butter is heating, prepare the vegetables. Insert the chopping blade into the work bowl of the food processor. Add the garlic, ginger and leek, and pulse until finely chopped, about 8 to 10 times. Put into the pot with a pinch each of the salt and pepper. Sauté until softened, about 8 minutes (you want the heat to be low so the vegetables do not pick up any color).
3. While vegetables are cooking, remove the chopping blade and insert the medium slicing disc. Slice the potatoes on High. Add to the softened vegetables and stir to fully combine. Add the cinnamon, cayenne and broth, and increase heat to bring mixture to a boil. Once boiling, reduce heat to maintain a simmer. Allow to simmer until potatoes are tender, about 15 minutes.
4. Using a slotted spoon, transfer the soup solids to the food processor and transfer liquid to a measuring cup (this will make it easier to add to the food processor while puréeing). Process on High to purée and while processing, slowly add the hot cooking liquid to the food processor. Process on High for about 2 minutes for a smooth consistency.
5. Return the soup to the saucepan to re-warm. Stir in the cream if using. Taste and adjust seasoning accordingly.
6. Serve immediately.

# POTATO-ZUCCHINI-CARROT CAKES

A twist on the traditional potato latke.

- 1 TABLESPOON FRESH ITALIAN PARSLEY, STEMS DISCARDED
- 1 MEDIUM RUSSET POTATO, PEELED AND CUT TO FIT THE FEED TUBE
- 1 SMALL ZUCCHINI, TRIMMED
- 1 SMALL TO MEDIUM CARROT, TRIMMED AND PEELED

- 2 TABLESPOONS VEGETABLE OIL, PLUS MORE AS NEEDED
- APPLESAUCE AND SOUR CREAM FOR SERVING

Makes ten to twelve 2½-inch cakes

1. Insert the chopping blade into the work bowl of the food processor. Add the parsley and finely chop, using 5 to 6 long pulses. Leaving the parsley in the bowl, remove the chopping blade and replace with the medium shredding disc. Laying the vegetables horizontally in the feed tube (trim to fit as needed), shred the potato, zucchini, carrot and onion on High. Wrap the vegetables in a clean kitchen towel and wring it over a bowl or the sink to squeeze out all the excess liquid.
2. Transfer the vegetables to a medium-size bowl. Add the salt, pepper and flour and gently mix to fully combine. Gradually add the beaten egg (you may not need all of it) until the mixture just holds together. You do not want the mixture to be too wet or the final cakes will be dense.
3. Put the oil in large non-stick skillet over medium-high heat. Using a heaping tablespoon per pancake, drop the batter into the pan. Use the back of the spoon to flatten out the pancakes into 2½-inch rounds. Cook the pancakes in batches, no more than 4 at a time, about 1½ to 2 minutes per side or until crisp and browned. Repeat, adding oil as needed until all pancakes are cooked. Keep finished pancakes warm on rack set over a baking sheet in a 200°F oven.
4. Serve pancakes warm with applesauce and sour cream.

Makes 8 to 10 servings

1. Preheat oven to 400°F with the rack in the lower third of the oven.
2. Put the butter in a medium-size stockpot over medium-low heat.
3. While pan is heating, prepare the vegetables. Insert the medium slicing disc into the work bowl of the food processor, slice the carrot and celery together and reserve.
4. Remove the slicing disc and insert the chopping blade. Add the onion and pulse about 5 to 6 times to chop. Add the onion, carrot and celery to the pot to sauté, until vegetables are softened, about 8 to 10 minutes.
5. In two batches, roughly chop the chicken by pulsing 2 to 3 times. Remove and reserve in a separate bowl.
6. Stir the flour into the vegetable mixture and cook for about 3 minutes to eliminate any raw flour taste. Slowly whisk in 4 cups of the chicken broth, increase heat to medium high to bring to a boil, then reduce heat slightly to maintain a healthy simmer. Stir in the potatoes, salt and pepper and let simmer for about 15 minutes, until vegetables are tender. Add more broth if necessary so vegetables stay submerged. Stir in the reserved chicken and frozen onions. Simmer for an additional 30 to 35 minutes to thicken. Once stew-like, stir in the peas.
7. While filling is cooking prepare the biscuit dough. Cut biscuit dough into 9 pieces. Reserve, covered loosely with plastic.
8. Pour filling into a 9-inch square pan. Evenly distribute the biscuits over the top of the filling so there is about  $\frac{1}{4}$  inch of space between biscuits.
9. Bake until biscuits are fully cooked and golden brown, about 15 minutes. Allow pot pie to rest at least 15 minutes before serving.

## TACO FILLING:

- 1 GARLIC CLOVE

- SOUR CREAM OR PLAIN YOGURT, FOR SERVING
- TOMATO SALSA, FOR SERVING (PAGE 27)
- CHUNKY GUACAMOLE, FOR SERVING (PAGE 28)

Makes about 12 tacos

1. Insert the medium shredding disc into the work bowl of the food processor. On High, shred the Monterey Jack. Remove and reserve, keeping it loosely covered with plastic wrap. Flip the disc to the slicing disc side. On High, slice the lettuce; remove and reserve. Slice the tomatoes and reserve.
2. Remove the slicing disc and insert the chopping blade. With the machine running on High, drop the garlic and jalapeño through the feed tube until finely chopped. Stop the machine, scrape down the sides of the bowl and add the onion. Pulse to finely chop, about 3 times. Scrape down the sides of the bowl and add the stew meat. Using 10 to 12 long pulses, finely chop the meat, pausing between pulses to allow it to drop back into the bowl. Scrape down the sides of the bowl halfway through chopping.
3. Put the oil into a large skillet over medium-high heat. Add the chopped meat-vegetable mixture, spices and salt. Cook until the meat is no longer pink. Add the tomato paste and cook for about 1 minute. Add the broth and cook until it has evaporated. Remove the pan from the heat.
4. To assemble the tacos, put about 2 to 3 tablespoons of taco meat in the center of each tortilla. Top with some of the lettuce, tomato and cheese. Garnish with sour cream, salsa and guacamole.

## FISH STICKS

Crushed tortilla chips make crisp fish sticks that are perfect in fish tacos, but for a more traditional coating, use the breadcrumbs recipe on page 18.

- 3** CUPS TORTILLA CHIPS
- ½** POUND WHITE FISH, LIKE LEMON SOLE OR COD (BECAUSE COD TENDS TO BE THICKER, YOU MAY ONLY GET 10 “STICKS” OUT OF A ½-POUND PIECE, BUT WITH THINNER FISH, LIKE LEMON SOLE, YOU WILL BE ABLE TO GET CLOSER TO 20)
- JUICE OF 1 LEMON OR LIME
- KOSHER SALT
- FRESHLY GROUND BLACK PEPPER
- ½** CUP UNBLEACHED, ALL-PURPOSE FLOUR, MIXED WITH A PINCH EACH OF KOSHER SALT AND BLACK PEPPER
- 1** LARGE EGG, LIGHTLY BEATEN
- ¼** CUP VEGETABLE OIL
- RÉMOULADE, FOR SERVING (PAGE 27)

Makes about 10 to 20 fish sticks (depending on type of fish used; see ingredients)

1. Insert the chopping blade into the work bowl of the food processor. Add the tortilla chips and pulse about 5 times to break up, then process on High to finely chop, about 20 to 30 seconds. Remove and reserve in a shallow baking dish.
2. Cut the fish into 1-inch wide “sticks.” Liberally season on all sides with the citrus juice, salt and pepper.
3. Put the flour and egg into separate shallow bowls or baking dishes.
4. First lightly coat the fish in the flour, then in the egg and then in the ground chips. Set on a clean platter. Repeat with remaining fish.
5. Put the oil in a large skillet over medium heat. Once hot, cook fish, putting no more than 5 pieces into the skillet at one time, until golden brown and crisp. Remove and reserve on a cooling rack set over a paper towel-lined tray.
6. Serve immediately with the rémoulade.

**Note:** To enjoy as fish tacos, prepare as directed, and serve in warmed soft tortillas, topped with cabbage slaw and a squeeze of lime juice. To prepare slaw: mix together 2 tablespoons of chopped cilantro with 1 cup of shredded green cabbage, ½ teaspoon each of kosher salt and black pepper and 1 teaspoon of olive oil.

# BUTTERY DINNER ROLLS

Fresh from the oven, warm rolls make any dinner extra special.

1/3	CUP WHOLE MILK, PLUS 1 TABLESPOON FOR BRUSHING
4	TABLESPOONS UNSALTED BUTTER, PLUS 1 TABLESPOON FOR BRUSHING AND FOR PAN
2	TABLESPOONS GRANULATED SUGAR
1 3/4	TEASPOONS ACTIVE DRY YEAST
3	TABLESPOONS WARM WATER (105°–110°F)
2 1/2	CUPS BREAD FLOUR
3/4	TEASPOON KOSHER SALT
1	LARGE EGG, LIGHTLY BEATEN

1. In a small saucepan combine the 1/3 cup of milk, 4 tablespoons of butter and the sugar. Warm over low heat until the butter is melted. Remove from heat and set aside to cool to room temperature
2. Dissolve the yeast in the warm water. Let stand 5 minutes, or until mixture is foamy. Insert the chopping blade into the work bowl of the food processor. Add the flour and salt; process for 10 seconds on Low. Combine the beaten egg with the milk and yeast mixture and with the machine running on Low, slowly add the liquids through the feed tube and process until a dough ball forms. Continue processing 45 seconds to knead the dough. Shape the dough into a smooth ball and place in a 1-gallon sealable plastic bag. Squeeze the air out and seal the bag. Let rise in a warm place until the dough has doubled in size, about 45 to 60 minutes.
3. Preheat oven to 450°F. Lightly butter a 9-inch round baking pan. Divide the dough into 10 equal pieces, about 2 ounces each. Roll into smooth rounds and arrange in the prepared pan. Cover with plastic wrap and let rise until the rolls have doubled in size, about 30 to 40 minutes. Combine remaining tablespoon of milk and butter and heat until the butter has melted. Just before baking, gently brush the rolls with the melted butter/milk mixture. Bake until golden brown or an internal temperature of 180°F is reached, about 12 to 15 minutes. Remove from pan and let cool on a rack for about 10 minutes for serving.
4. For a softer roll, brush each with melted butter just after removing from oven.

1½	TEASPOONS BAKING SODA
¼	TEASPOON GRANULATED SUGAR

Remove dough from work bowl and place on a well-floured surface. Knead dough by hand about two to three times, form into a log and cut into 8 equal pieces. Form each piece into a round and place evenly spaced on the prepared baking sheet.

(PAGE 55)
- 1½** POUNDS APPLES (GOLDEN DELICIOUS, GINGER GOLD, OR PINK LADY TEND TO BE THE TASTIEST), ABOUT 4 MEDIUM, PEELED, CORED, AND HALVED
- ½** JUICE OF ½ MEDIUM LEMON
- ½** TEASPOON GROUND CINNAMON

Makes one 10-inch pie, 8 to 12 servings

1. Preheat oven to 450°F with the rack in the lower third of the oven.
2. Roll out one of the discs of dough to ⅛-inch-thick circle and fit into a 10-inch pie plate. Chill in refrigerator for a minimum of 20 minutes. Using a fork, prick the chilled dough evenly all over, but make sure not to go entirely through the dough.
3. While dough is chilling, prepare the filling. Insert the slicing disc into the work bowl of the food processor. Stand the apple halves upright in the feed tube and slice on High. Transfer to a large bowl and gently toss with the lemon juice, spices, salt, vanilla and sugar.
4. Transfer the apple mixture to the pie shell.
5. Roll out the remaining dough into a 10-inch disc. Brush the outer rim of the pie shell with the egg wash. Press the dough disc on top of the filled pie plate, pressing down the sides to seal. Using a paring knife, trim any excess dough and discard (or save for another use). Cut four ½-inch vents in the center of the top of the pie crust in a circular pattern, similar to a clock's 12, 3, 6 and 9 o'clock positions. Brush the top with more of the egg wash and sprinkle with granulated sugar.
6. Bake the pie for 15 minutes, then reduce the temperature to 350°F and continue to bake until golden brown, approximately another 40 minutes. Let the pie rest on a cooling rack at least 40 minutes before serving.
