

MANUAL SAFETY DATA SHEET

[In accordance with the criteria of Regulation No 1907/2006 (REACH) and Regulation (EC) 878/2020]

Section 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name: **FLY STICK JUMBO**

REACH No. A registration number is not available for the mixture. Each substance Included within the mixture is registered.

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: Paper tube for fly monitoring, hang able. For indoor application
Uses advised against: not determined

1.3 Details of the supplier of the safety data sheet

Producer: **Euroimpex Polska Sp. z o.o.**
Address: 05-530 Góra Kalwaria, Karolina 58, Poland
Telephone/Fax number: +48 22 262 86 46
E-mail address for a competent person responsible for SDS: office@eipolska.pl

1.4 Emergency telephone number

112 (emergency number) or +48 22 262 86 46 (Mon-Fri, 9-17).

Section 2: Hazards identification

2.1 Classification of the substance or mixture

Product is not classified as hazardous for human health or life and for the environment.

2.2 Label elements

Hazard pictograms and signal words

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

Hazard statements

Not a hazardous substance or mixture according to Regulation (EC) No 1272/2008.

Precautionary statements

P101 If medical advice is needed, have product container or label at hand.
P102 Keep out of reach of children.
P270 Do not eat, drink or smoke when using this product.

2.3 Other hazards

This mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Section 3: Composition/information on ingredients

3.1 Substances

Not applicable.

3.2 Mixtures

Product in the form of paper tube coated with pressure sensitive adhesive. The product does not contain components classified as hazardous in the quantities required to mention in the safety data sheet.

Section 4: First aid measures

4.1 Description of first aid measures

Skin contact: wash the contaminated skin with plenty of water with soap and rinse it well. Consult a doctor if disturbing symptoms appear.

Eye contact: wash eyes with plenty of running water with the eyelid hold wide open. Protect the non-irritated eye and remove contact lenses. Consult a doctor if disturbing symptoms appear.

Ingestion: exposure does not normally occur by this route.

Inhalation: no negative health effects are expected.

4.2 Most important symptoms and effects, both acute and delayed

No data about any significant effects or critical hazards during normal use of the product.

4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured.

Section 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: foam, extinguishing powder, carbon dioxide. Adjust fire fighting measures to the surrounding materials.

Unsuitable extinguishing media: water jet – risk of the propagation of the flame.

5.2 Special hazards arising from the substance or mixture

During the fire, the product may produce hazardous fumes, containing such as carbon oxides. Do not inhale combustion products, they can be dangerous for human health.

5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. In case of fire, cool down the endangered containers with water spray, from a safe distance. Collect the extinguishing water.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. In case of large spills, isolate the exposed area.

6.2 Environmental precautions

Do not empty into drains, surface water and groundwater. In case of large spills, prevent the product from spreading into the environment. Notify relevant emergency services if necessary.

6.3 Methods and material for containment and cleaning up

Collect mechanically released product. Treat it as waste or pass to re-use it.

MANUAL SAFETY DATA SHEET

6.4 Reference to other sections

Appropriate conduct with waste product – see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Before break and after work wash hands carefully. When handling do not eat, drink or smoke. Ensure adequate ventilation at the workplace.

7.2 Conditions for safe storage, including any incompatibilities

Keep only in original, tightly closed containers, in a dry area. Keep away from food, beverages or animal feed.

7.3 Specific end use(s)

No information about the applications other than those specified in subsection 1.2.

Section 8: Exposure controls/personal protection

8.1 Control parameters

Product does not contain any components with occupational exposure limit values at working place at Community level (legal basis: Commission Directive 2006/15/EC, 2000/39/EC, 2009/161/EC).

8.2. Exposure controls

Use the product in accordance with good occupational hygiene and safety practices. Do not eat, drink and smoke during the work. Before break and after work wash hands carefully. Ensure adequate ventilation.

Hand and body protection

Not required under normal conditions.

Eye/face protection

Not required under normal conditions.

Respiratory protection

Not required under normal conditions.

Environmental exposure controls

Prevent large amounts of product from reaching ground water, sewage, waste water or soil.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

physical state/appearance:	solid/film type trap with sticky adhesive
colour:	not applicable
odour:	not determined
odour threshold:	not determined
pH:	not applicable
melting point/freezing point:	not determined
initial boiling point and boiling range:	>200°C
flash point:	not determined
evaporation rate:	not determined
flammability (solid, gas):	not flammable

upper/lower flammability or explosive limits:	not applicable
vapour pressure:	not applicable
vapour density:	not applicable
density:	not determined
solubility(ies):	insoluble in water,
partition coefficient: n-octanol/water:	not applicable
auto-ignition temperature:	not determined
decomposition temperature:	not determined
explosive properties:	not applicable
oxidising properties:	not applicable
viscosity:	not applicable

9.2 Other information

No data

Section 10: Stability and reactivity

10.1 Reactivity

Product less reactive. Product does not undergo a dangerous polymerization.

10.2 Chemical stability

The product is stable under normal conditions of use and storage.

10.3 Possibility of hazardous reactions

Not known.

10.4 Conditions to avoid

Water, moisture.

10.5 Incompatible materials

Not known.

10.6 Hazardous decomposition products

Not known.

Section 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Based on available data, the classification criteria are not met.

Skin corrosion/irritation

Based on available data, the classification criteria are not met.

Serious eye damage/irritation

Based on available data, the classification criteria are not met.

Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

STOT-single exposure

Based on available data, the classification criteria are not met.

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

11.2 Additional Information

Endocrine disrupting properties

Product:

The mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Section 12: Ecological information

12.1 Toxicity

Product is not classified as hazardous for the environment.

12.2 Persistence and degradability

Not determined.

12.3 Bioaccumulative potential

Not expected to bioaccumulate.

12.4 Mobility in soil

The product is not mobile in soil. Does not dissolve in water and does not spread in the environment.

12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Endocrine disrupting properties

Check section 11.2

12.7 Other adverse effects

Product does not have any influence on global warming and destruction of the ozone layer.

Section 13: Disposal considerations

13.1 Waste treatment methods

Disposal methods for the product: do not empty into drains. Small quantity of the product can be removed with municipal solid waste. Dispose in accordance with applicable regulations. Waste code should be given at the place of manufacture.

Disposal methods for used packing: reuse/recycling/liquidation of empty packaging dispose in accordance with the local legislation. Only containers completely emptied can be reused. Recycle disposable packaging.

Legal basis: Directive 2008/98/EC, 94/62/EC.

MANUAL SAFETY DATA SHEET

Section 14: Transport information

14.1 UN number

Product is not classified as dangerous during transport by land, sea or air.

14.2 UN proper shipping name

Not applicable.

14.3 Transport hazard class(es)

Not applicable.

14.4 Packing group

Not applicable.

14.5 Environmental hazards

None.

14.6 Special precautions for user

Not necessary.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable.

Section 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, with subs. changes and annexes, particularly Annex II **2020/878/EC**.

Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006, with subs. changes.

Commission Regulation (EC) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives.

648/2004/WE Regulation (EC) European Parliament and of the Council of 31 March 2004 about detergents included later changes.

528/2012/WE Regulation (EC) European Parliament and of the Council (EU) of 22 May 2012 regarding available on market and use of biocidal products.

European Parliament and Council Directive 94/62/EC of 20 December 1994 on packaging and packaging waste.

15.2 Chemical safety assessment

The safety assessment for the mixture is not required.

Section 16: Other information

Clarification of aberrations and acronyms

PBT Persistent, Bioaccumulative and Toxic Substances

MANUAL SAFETY DATA SHEET

vPvB very Persistent and very Bioaccumulative Substances

Trainings

Before commencing working with the product, the user should learn the Health & Safety regulations, regarding handling chemicals, and in particular, undergo a proper workplace training.

Other data

Classification was based on data on hazardous substances calculation method under the guidance of Regulation 1272/2008/EC (CLP).

Version: 3.0/EN

Changes: section 1,2,3,8,15,16.

This SDS annuls and replaces all previous versions

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field.
