Before

After

Superior Results Everywhere You Use It.

Colour Crete™ gives your concrete and masonry surfaces a whole new look that's easy to apply and hard to beat. Do it yourself and achieve long-lasting professional results right at home, or wherever you choose to use it.

You can use **Colour Crete™** to stain any porous masonry surface including:

- Walkways
- Driveways
- Stepping Stones
- Patios
- Cultured Stone
- Even Interior Concrete and Masonry

So treat yourself and your concrete to a little colour this year with Colour Crete™.

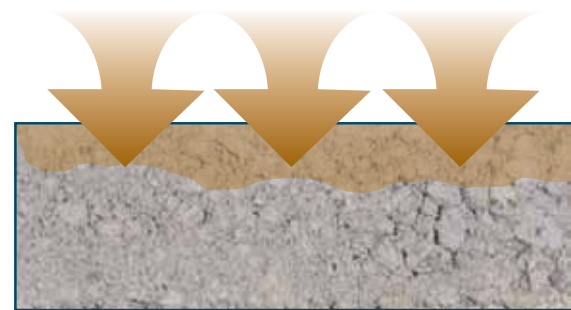

Your concrete will thank you.

Professional Looks. Without the Professional.

Just by following the instructions on the can, you can give your surfaces a water-repellent, natural appearance which will give you years of enjoyment.

So what's our secret? Unlike other products that only coat the surface, **Colour Crete™** uses a special formula that penetrates beneath the surface and develops a deeply anchored bond with concrete and other masonry surfaces. The results will amaze you.

Increase the Value of Your Home.

Use **Colour Crete™** and in no time at all, you'll have beautifully stained concrete and masonry that will enhance the look and increase the value of your home. **You can do it yourself** just by following these simple steps:

Clean & Prepare Surface
Clean your surface with **Preserva Crete™ Cleaner/Etcher**. Rinse thoroughly with water and allow to dry.

Apply & Be Creative
Create darker tones by applying a second coat where possible. **Get creative** and achieve special effects by blending tints of **Colour Crete™**, wet on wet.

Add A Satin Finish
If you're looking to create a soft sheen over your stained or even bare concrete or masonry, give **Colour Crete™ Satin Finish** a try.

What you'll need to get started:

- **Preserva Crete™ Cleaner/ Etcher**
- **Colour Crete™ Concrete Stain**
- Broom
- Hose with pressure nozzle
- Paintbrushes, rollers, or pump sprayer
- Paint pan
- Drop cloth
- Masking tape
- **Colour Crete™ Satin Finish**
