Additional actions that will void the warranty are: Use of lacquer or paints on any part of the sauna, placing sauna on non-approved surface, and outdoor applications.

**Surface cracks are NOT considered defects in material or workmanship, as they are normal characteristics of all wood. This includes minor cracks due to wood expansion and contraction. Note: since the wood used in construction has been kiln dried, a certain amount of expansion and contraction is expected in the wood within a sauna environment. Also, over time the sauna wood may darken or change color tones. This color change is considered normal aging and is not covered under warranty.*
