

With WOOSTER, you've got friends in High Places

WOOSTER®

SHERLOCK®

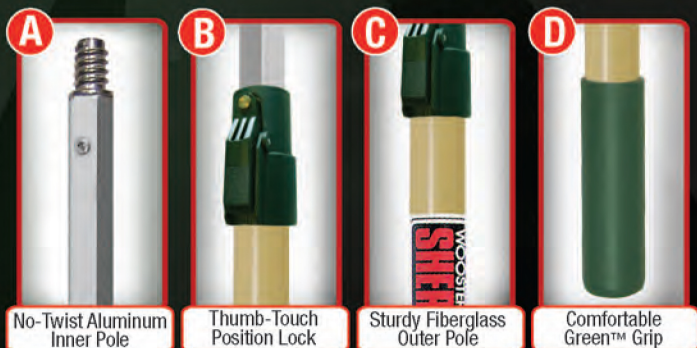

EXTENSION POLES

All The Features Professionals Demand

Quick The green quick-release position lock is made of durable, fiberglass-reinforced nylon with a heavy-duty brass locking pin. Adjust the length of the pole with just a touch of the thumb. You can depend on Sherlock—there's no need to worry about slipping or twisting.

Comfortable The lightweight fiberglass outer pole makes Sherlock easy to handle. It has a polyester fabric surface treatment for durability. The handgrip provides comfortable, non-slip support.

Durable The strong hexagonal inner pole, made of anodized aluminum, prevents twisting and locks in 6-inch increments. The rugged, zinc die cast tip with universal threads holds tools securely.

A No-Twist Aluminum Inner Pole

B Thumb-Touch Position Lock

C Sturdy Fiberglass Outer Pole

D Comfortable Green™ Grip
