

# **Philodendron Brasil Care**

## **WATER**

Water Philodendron Brasil once per week. Allow the soil to drain between watering.

## **SUNLIGHT**

Philodendron Brasil will thrive in a location with bright, indirect sunlight. Direct sunlight might cause foliage damage.

## **FERTILIZER**

Feed Philodendron Brasil houseplants with a general-purpose liquid foliage houseplant fertilizer. Look for a fertilizer that contains macro-nutrients.

## **TEMPERATURE**

Philodendron Brasil prefers temperatures between 65 – 78°F during the day, and around 60°F at night.
