PLASTI-GRIP® ci Prong INSULATION WASHERS

FOR RIGID INSULATION ATTACHMENT TO WOOD, STEEL, OR CONCRETE.

- Flexible design flattens flush on insulation surface
- Pre-spotting prongs for on-the-wall fastener assembly
- Recommended for all types of rigid insulation

SHOOT IT, SCREW IT, NAIL IT!

- Compatible with nails and screws. Recommended SPAX #8 or #10 construction screws with minimum fastener head of 1/4" dia.
- Rigid insulation attachment solutions for: foundation and basement walls, garages, barns, crawl spaces, attics, and all interior/exterior walls and ceilings
- 1-3/4" diameter plastic washer provides superior holding power
- Designed to reduce thermal bridging and air infiltration
- Recommended by leading insulation manufacturers
