

## Bamax Q&A

Q: What do you need to do to clean your bamboo furniture?

A: Use a soft cloth and a gentle cleaner designed for all wood furniture. Do not use any abrasive materials, oil, acidic or caustic ingredients or any other harsh chemicals.

Q: What are interlock drawer systems?

A: The system only allows one drawer to open at a time on a chest and two on a dresser (opposite sides).

Q: What colors do not have a chemical stain?

A: Wheat, Caramelized, and Amber.

Q: Is the furniture commercial grade?

A: Yes all pieces are commercial grade.

Q: How durable are the pieces?

A: Classic Bamboo is 20% harder than Red Oak, while our Exotic Bamboo is 100% harder is 100% harder than Red Oak, lasting a lifetime with the proper care.

Q: How much waste is procured during production?

A: Bamax utilizes the entire bamboo culm in the manufacturing process, wasting nothing. 100% of the bamboo material is used, including the sawdust, which is used to generate steam for the dry kiln room and press machine.

Q: What makes the product sustainable?

A: We harvest one of Earth's fastest-growing plants straight from bamboo forests in China to design naturally beautiful furniture in a process that is environmentally friendly and helps sustain our planet. Bamboo is one of the best plants on Earth to sequester carbon. It releases approximately 35% more oxygen than an equivalent stand of trees and is extremely durable.
