

Insulated Tumbler Use and Care Manual

General Use

This 40 oz insulated tumbler is made of double-walled vacuum food-grade stainless steel, keeping beverages hot for 12 hours and cold for 34 hours; ice remains intact overnight. The contoured handle with a thumb rest ensures a comfortable grip, and its base fits most standard cup holders for on-the-go use.

Lid Usage

The tumbler comes with a 2-in-1 lid. For spill-proof sipping, use the included straws. To swig directly, remove the straw and use the flip-top lid. Two straws and a straw brush are provided for convenience.

Cleaning Instructions

Wash before first use. Hand wash with mild soap and warm water; avoid abrasive cleaners. Use the straw brush to clean straws thoroughly. Do not soak the tumbler for extended periods. The lid is disassemblable for deep cleaning; dry all parts completely before reassembly.

Caution

Not suitable for microwave or dishwasher. Avoid overfilling to prevent spills. Keep away from extreme heat sources. Food-grade stainless steel is rust and odor-free; avoid storing strongly flavored drinks for long to maintain freshness. Do not use sharp objects on the interior to prevent scratches.
