

YTF-35HPDM

Giving you a smooth, level surface, the Yard Tuff Drag Mat lets you grade soil for a neat and level playing field. Great for grooming the infield of baseball fields, the mat also maintains baseball mounds and jumping sandpits.

Measuring 3 feet by 5 feet, the large mat helps you easily smooth over your landscape. Designed to be used in multiple ways, you can drag the mat by hand or tow the mat behind your ATV, UTV, or lawn tractor, letting you quickly and easily level your field. Designed for use with fine gravel or soil, the mat smooths out various surfaces. Primarily used for baseball fields, the mat can also grade driveways, yards, and other dirt or gravel surface that need a smooth, level grade. Built from lightweight steel with a zinc-plated finish, the system remains durable and light for ease of use.

Helping you keep your field smooth and well-graded, the Drag Mat by Yard Tuff ensures your baseball field is ready for play.
