

# CARE AND CLEANING GUIDE

## Swanstone Walls and Floors

Clean regularly with common household liquid cleaners and rinse within five minutes of application. Occasional scrubbing with abrasive cleaners ensures that the original luster will be maintained. For hard water stains, scale removers can be used. If necessary, abrasive cleaners can be used with a nylon brush or pad to remove build up on the shower floor surface. Do not use a metal-scouring pad or a wire brush, as it will damage the surface.

Do not use “leave on” cleaning products, such as automatic spray shower cleaners. Prolonged contact with harsh chemicals could have an adverse reaction over time and discolor surfaces.

Do not use cleaning agents that caution use on acrylic, polyester or plastics.

## Swanstone Vanity Tops and Bowls

Cleaning regularly with common household liquid cleaners is recommended. If necessary, abrasive liquids or detergents are safe and effective for use with nylon scouring pads, sponges, Mr. Clean® Magic Eraser® or other similar products. Mineral stain removers are acceptable as well.

Do not use metal scouring pads.

## Veritek Products

Clean regularly with common household liquid cleaners and a sponge or soft cloth. For hard water stains, scale removers can be used. To protect finish, any fiberglass wax or automotive paste wax can be applied.

Do not use cleaning agents that caution use on acrylic, polyester or plastics.

Do not use abrasive cleaners or scouring pads.

Do not use “leave on” cleaning products, such as automatic spray shower cleaners. Prolonged contact with harsh chemicals could have an adverse reaction over time and discolor surfaces.

## High-Gloss Products

Clean regularly with common household liquid cleaners and a sponge or soft cloth.

Do not use abrasive cleaners or metal scouring pads.

Do not use “leave on” cleaning products, such as automatic spray shower cleaners. Prolonged contact with harsh chemicals could have an adverse reaction over time and discolor surfaces.

## Swanstone Kitchen Sink

Clean your Swanstone sink by using abrasive cleaners or other similar products. Use of a nylon scouring pad or Mr. Clean® Magic Eraser® is also recommended. Food-based stains can be removed using a 50-50 mix of bleach and water solution and soaking for 15 minutes. For rust or other mineral stains, rust-removing products are acceptable. To restore luster or extend time between cleanings, Weiman® Granite Cleaner & Polish is recommended.

Do not use metal scouring pads.

## Swan Granite Sink

Clean your Swan Granite Sink by using warm water and a soft clean cloth, sponge or Mr. Clean® Magic Eraser®. Non-abrasive liquid cleaners and detergents can also be used. Hard water, calcium and lime deposits can be removed with white vinegar on a paper towel; rinsing after 20 minutes. To restore luster and extend time between cleanings Weiman® Granite Cleaner & Polish is recommended. Staining liquids, such as dyes and vegetable juices should be rinsed off as soon as possible.

Do not use abrasive cleaners, metal-scouring pads, or bleach or alkali cleaners, such as ammonia.

## Swanstone Utility Sink

Clean regularly with common household liquid cleaners, bleach or similar type products in conjunction with a sponge or soft cloth. For hard water stains, scale removers can be used. To protect finish, fiberglass wax or automotive paste wax can be applied.

Do not use abrasive cleaners or metal scouring pads.
