

PROTECT YOUR APPLIANCES

Appliance / Electronics Surge Protector

Why do you need a surge protector?

Power spikes are more common than you'd think and they can damage your household electronics and appliances. An appliance-grade surge protector is a low-cost, high-value solution to safeguarding your appliances from damaging power surges.

SURGE PROTECTION

1050 joules of surge protection defends your appliances from damaging spikes and surges caused by power grid issues and weather-related surges.

PROGRAMMABLE RESET TIMER

The programmable delay timer detects under-voltages and over-voltages and automatically regulates the incoming power to connected appliances, avoiding a manual reset.

LED INDICATOR

The LED indicator light allows you to check the power status at a glance and take action if needed to protect your appliances.
