

LED FIXTURE

SPECIFICATIONS

Grow better, stronger plants with the Feit Electric GLP12FS/VM/13.5W/LED full spectrum grow light fixture. Modular segments can connect end to end to create a single continuous strip. Snap up to four fixtures together for length or place them side by side for a larger canopy, improving your PAR value up to 4x. Full spectrum wavelengths promote photosynthetic response, with bulbs integrated directly into the fixture taking away the chore of replacing them. Each lightweight fixture comes with a 5 ft. plug-in cord, a 6 in. connecting cable, and a hanging wire harness. Our energy-efficient LED grow lights last 25,000 hours / 22 years and put out little heat, saving your crop from burn damage. Choose a no humming, dependable grow lighting fixture for your hydroponic needs.

12 inch Vertical Mount Full Spectrum LED Grow Light

GLP12FS/VM/13.5W/LED

Features

- Use as a plant, hydroponic or horticulture grow light
- Emits spectrum wavelengths and color for superior photosynthetic response
- Operates cooler than HPS lamps to guard against leaf burn and crop damage
- Save energy and money with innovative LED lighting
- 1 Year Warranty
