

KNOW YOUR SPA

Lucite Xtra Acrylic

Shell is made with an impervious, low maintenance premium acrylic sheet

WeatherGuard™ Cabinet

This wood frame cabinet with maintenance-free, synthetic reversible panels provides a beautiful exterior without the hassle

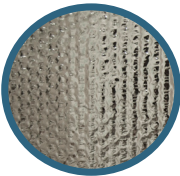

Insulated Hard Cover

Includes a hard cover which provides adequate protection from the elements and keeps your spa properly insulated

1 KW Convertible Heater

Keep your spa hot all season long - can be upgraded to a 240 Volt system with a 4 KW heater

Polar Insulation

Protects your spa with a layer of insulation lined with radiant foil

Easy Access to the Essentials

The panel located under the topside control contains all of the essential spa equipment

Plug & Play Spa

No electrician required - just fill the spa with water, plug into a 120 Volt/15 Amp outlet, and enjoy!

Assembly-Free Spa

Your spa comes completely assembled - just attach the lockable cover

15 Foot GFCI Cord

Your 15 foot GFCI cord typically comes stored in the equipment area under the topside control panel
