Care and Cleaning

- Do not allow water to build up in the frames. This will cause corrosion and possible freezing damage in cold climates.

- Use a mild soap and water for normal cleaning. Do not use janitorial or alcohol-based cleaners. Some cleaners may be marked as natural, but some ingredients may cause discoloration or have an adverse reaction to your finish.

- Rinse with clean water and dry with a soft, absorbent cloth towel.

- Treat the frames with a liquid wax for maximum protection against UV rays and/or salty, damp air.
