

# GLIDDEN® EPOXY GARAGE FLOOR COATING

*Two-Part Waterbased Epoxy Concrete Garage Floor Coating*

## GLIDDEN® EPOXY GARAGE FLOOR COATING

Introducing *Glidden Epoxy Garage Floor Coating*, an excellent product to coat and protect concrete garages, basements, patios, workrooms, and much more. This ultra durable product stands up to challenging hot-tire conditions from vehicles, keeping the floor surface intact and looking great. It dries fast, meaning cars can be driven on the surface after just 24 hours. One kit can coat a 300 square foot space, providing resistance to impact, chemicals, and stains. An anti-slip additive is included to help make sure surfaces are not slippery to walk on.

### PRODUCT APPLICATION

**Dry Times:** Foot Traffic – 8 hours  
Vehicle Traffic – 24 hours

### KIT INCLUDES

Epoxy Base Color  
Activator  
Decorative Flakes  
Anti-Slip Aggregate
