OPERATION GUIDE

Using Blender

The hand blender is perfectly suited for preparing dips, sauces, mayonnaise, and baby food as well as for mixing and milkshakes.

1. Insert the blender shaft into the motor unit, and turn it clockwise to lock it into the motor unit.

2. Insert the plug into socket. Press high-speed button or low-speed button to start the blender. When you press low-speed button, you can rotate the speed control knob to adjust the speed.
3. Put ingredients in the beaker to prevent splattering, and immerse the blade guard completely in the ingredients. (Beaker maximum capacity 600ml). You can use the hand blender in the beaker and just as well in any other vessel

4. Switch the appliance on by pressing the low-speed or high-speed buttons.

5. Blend the ingredients by moving the appliance slowly up, down and in circles.

Using whisk

The whisk is intended for whipping cream, beating egg whites and mixing sponges and ready-mix desserts.

1. Insert the whisk into the Whisk coupling unit strongly.
2. Connect the coupling unit to the motor unit, installation reference "using blender".

3. Press the switch to activate the handle blender, and press the high-speed button after 30 seconds to prevent ingredients from splashing.

Using milk frother

The whisk is intended for whipping cream and froth milk. Froth all types of milk, create a vast array of professional-quality hot and cold foam and drinks such as cappuccino, latte, hot chocolate, milkshake, cocktails (and many more).

4. Insert the frother into the Whisk coupling unit strongly.
5. Connect the coupling unit to the motor unit, installation reference "using blender".

Using removable pan guard

Removable pan guard to help protect your cookware when blending.

Using wall holder

The wall holder is intended for hanging hand blender and egg whisk or beaters.

1. Fixed the wall holder with traceless glue. It need 24 hours.
2. After 24 hours, then put the hand blender and egg whisk or beaters on the wall holder

CLEANING AND MAINTENANCE

1. Before cleaning, unplug the appliance and detach the accessories.
2. Wipe the motor and whisk coupling units; do not immerse them in water. Other accessories can put the dishwasher or the water clean.
3. If food is not easily rinsed off the blade or whisk, place a drop of dish detergent in the mixing container with water. Plug the cord into the outlet. Immerse the blade end portion or whisk and operate the unit for about 10 seconds. Unplug, rinse under running water, and then dry.
4. When it will not be used for a long time, keep this appliance well-ventilated at the aridity of place to prevent damping the appliance's motor.

CAUTION:

The cutting edges of the blades are very sharp, it must be careful when cleaning.
