# NEW FORMULA – SAME DURABLE PERFORMANCE WITH FASTER, EASIER INSTALLATION

**FOR FLOORS, WALLS AND COUNTERTOPS**  
7/16" WonderBoard Lite Backerboard

**FOR FLOORS AND COUNTERTOPS**  
1/4" WonderBoard Lite Backerboard

WonderBoard Lite is up to 20% lighter. This fiberglass mesh-reinforced cement backerboard can be used for residential and commercial tile, stone, slate and thin-brick applications. High-flexural strength, along with moisture resistance, makes WonderBoard Lite ideal for both interior and exterior substrate applications.

- 7/16" (11 mm) board aligns to 1/2" (13 mm) drywall without use of shims or spacers on wall studs.
- WonderBoard Lite includes a preprinted pattern on the panel surface and is easy to score, snap, cut and fasten, simplifying installation.
- Remains stable when exposed to moisture, reducing risk of moisture damage.
- Meets ANSI A118.11, A118.9, A108.5 and A118.4
