

Model

# WKDP-20

# Sheet Metal Plenum

(47" H x 20" W x 20" D)

## Universal Trim-To-Fit Sheet Metal Plenum

Can be used for either supply or return air plenum applications.

### **DIRECTIONS: ALWAYS USE CAUTION WHEN HANDLING SHEET METAL.**

1. Determine the proper height, width, and depth of the installation application.
2. Trim only the straight edges of each side piece and top piece to fit application dimensions and assemble plenum using the inter-locking feature.
3. Attach the open end of the plenum to the equipment opening. *If the equipment opening is not equipped with flanges, creating flanges on the plenum opening may be necessary to ensure secure connections to equipment.*
4. Use sheet metal screws (where possible) and aluminum tape to secure and seal plenum.

This Kit Contains: 4 side pieces and 1 top piece.
