

VEVOR is a leading brand that specializes in equipment and tools. Along with thousands of motivated employees, VEVOR is dedicated to providing our customers with tough equipment & tools at incredibly low prices. Today, VEVOR's products are sold in more than 200 countries and regions with 10 million plus members worldwide.

VEVOR Durable and Robust Thermal Binder Machine

This thermal binding machine with a high-quality stainless steel body, is durable and reliable, maintaining excellent performance and stability even with frequent use.

Equipped with a high-quality heating tube to ensure even heating, preventing glue overflow or paper damage.

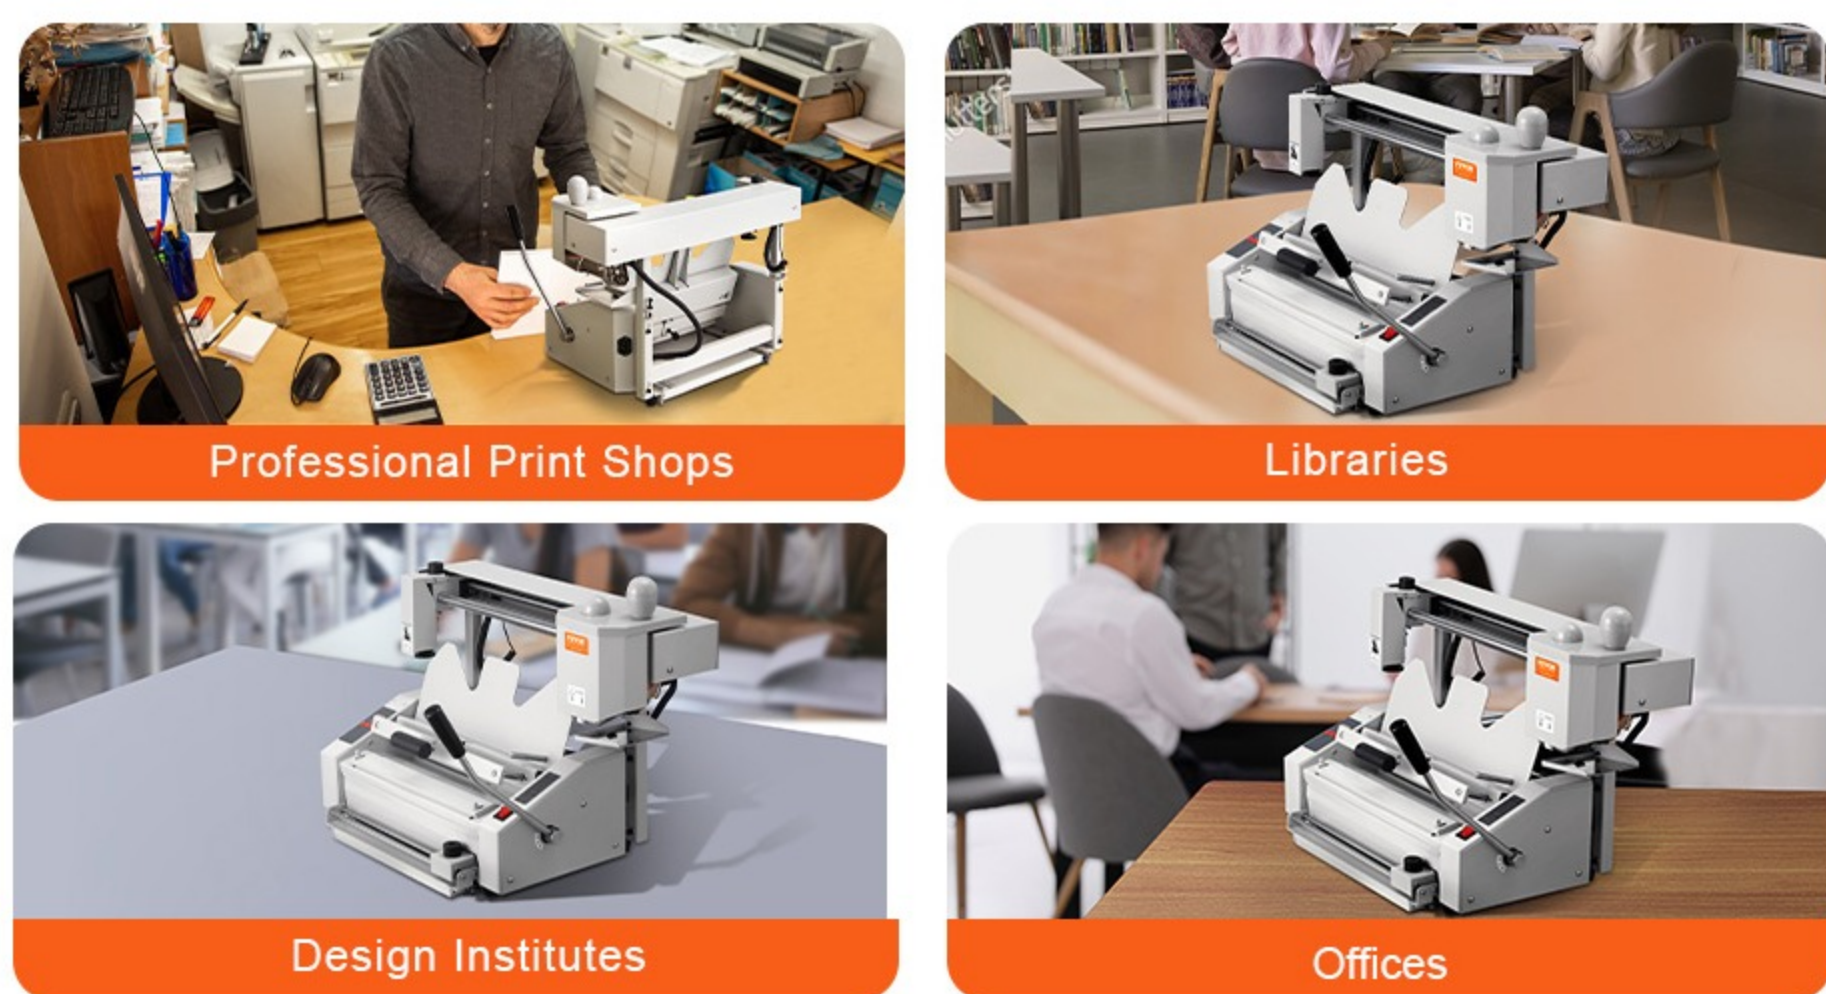

Our glue binding machine binds up to 400 sheets with a thickness of up to 50mm at once, significantly improving binding efficiency.

Say goodbye to complexity! VEVOR thermal book binder easily adjusts sizes and binds 160 books an hour effortlessly.

PERFECT BINDING SOLUTIONS

The document binder machine is suitable for professional printing and copying shops, libraries, design institutes, offices, and more.

Item Model Number: C30+	Control Method: Mechanical Switch	Heating Temperature: 140°C-170°C
Preheat Time: 15 min	Display Method: LED Indicator	Max Binding Thickness: 50 mm/1.97 in
Heating Time: 1 Hour/60 Books	Product Weight: 35 kg / 77.16 lbs	Product Dimensions: 640x360x560 mm / 25.2x14.17x22.05 inch
Heating Method: Heating Tube	Compatible Paper Sizes: A3 (Short Edge) / A4 / A5	Binding Capacity: 400 Sheets
Max Binding Length: 330 mm/12.99 in		

Thermal Binding Machine: Efficient and Easy to Use

The VEVOR thermal binding machine is efficient and user-friendly. It has a 400-sheet capacity. It can handle large volumes of paper, making it ideal for personal and commercial use. The preheat time is only 15 minutes, which is quite fast. The mechanical switch control method and LED indicator make it easy to operate. You can bind documents quickly and efficiently. This machine is perfect for those who must juggle many pages simultaneously. Therefore, it is advisable for anyone looking to simplify their binding process.

Versatile Hot Glue Binding Machine for Multiple Uses

This binding machine is not just for bookbinding. It can be used for many applications, including flattening and squeezing materials. So, it's an invaluable tool for various tasks. Whether you need to bind documents or flatten materials, this machine can handle it. The hot glue application method ensures strong and secure binding. This versatility adds value to your toolkit. You can use it for both home and industrial purposes. Thus, offering great utility.
