

LEVEL·UP

ADJUSTABLE DECK PEDESTAL JOIST SUPPORT

For Building Ground Level Decks

REDEFINING DECK BUILDING

Bison LEVEL.UP Adjustable Pedestals provide a revolutionary way to build ground-level decks. The Pedestals eliminate the need to dig, install and level concrete footers and posts, saving time and labor.

- Pedestals attach to wood joists to build ground-level plank decks
- Install over existing concrete and pavers or compact non-eroding soil or gravel — no demolition required
- Use to build ground-level decks with a max height of 20 inches
- Telescoping pedestal easily twists by hand to raise or lower height for a level surface — no tools needed
- Each LEVEL.UP 12 Pedestal Kit builds up to an 8 ft x 10 ft deck (using 2 x 6 lumber)
- Use one or more kits for a customizable deck design

STRONG
EACH PEDESTAL
HOLDS UP TO 750 LBS

ADJUSTABLE DECK PEDESTAL JOIST SUPPORT
For Building Ground Level Decks

HEAVY-DUTY ENGINEERED POLYMER Weather, Freeze & Mold Resistant

JOIST TOP ATTACHMENT (LU-JT)

- Attaches to the Adjustable Pedestal with the included screw
- Bend up the mounting brackets to fasten to 2 inch or 4 inch wide joists using #8 exterior screws (not included)

ADJUSTABLE PEDESTAL (LU)

- Raise or lower height of the telescoping pedestal by twisting to create a level surface — no tools required
- Pedestal only height range: 2 to 4-3/4 inches

SLOPE LEVELER (LU-SL)

- Levels the base of the Adjustable Pedestal and compensates for 2% slope (1/4 inch)
- Add up to four Slope Levelers to an Adjustable Pedestal to compensate for up to 2% slope (1/4 inch per foot). *Additional sold separately.*

FLOATING FOUNDATION BASE (LU-FFB)

- Place directly on the ground below pedestal to create a larger load-bearing surface area to prevent pedestal base from settling
- Evenly distributes weight over wide base

LEVEL-UP accessories can be added to increase height or compensate for slope (sold separately).

KIT INCLUDES 12 OF EACH PIECE (60 Total Pieces)

All lumber, decking boards, fasteners, tools & furnishings not included with kits or accessories. Level-Up pedestals are not for use on rooftops. Minimum deck size is 8 ft x 8 ft.
