

## ShopTek Stationary Air Power Warranty & Startup Requirements

For 50 years, Sullair has manufactured the highest quality compressed air solutions in the industry. The Sullair brand is synonymous with reliability, durability, and performance, which is a direct result of our commitment to supporting our products. Sullair compressors are covered by a standard 1-YEAR Warranty. By having a Sullair Authorized Distributor service and maintain your machine, your warranty is extended to 5-YEARS (outlined below).

Sullair Warranty Schedule		
	Standard Coverage 1 Year	EMERALD Warranty Coverage 5 Years
<b>Labor</b>	✓	
<b>Travel*</b>	✓	
<b>Air End</b>	✓	✓
<b>Separator Tank</b>	✓	✓
<b>Electric Motor</b>	✓	✓
<b>Controller</b>	✓	✓
<b>Heat Exchangers</b>	✓	
<b>Integrated Dryer</b>	✓	
<b>Complete Package</b>	✓	

\* Travel will be covered for a distance of 200 miles roundtrip from serving location.

### Warranty Requirements:

1. To ensure maximum performance, Sullair requires that all rotary screw compressors go through the specified start-up procedure performed by an authorized distributor. Contact your local distributor for pricing and scheduling. <http://www.sullairinfo.com/Search/Stationary/>
2. Your machine's warranty registration will be completed by the authorized Sullair Distributor performing the startup of your machine. Warranty coverage begins on the day of startup, which must occur within 60 days of delivery. Failure to have an authorized Sullair Distributor startup your machine will result in a voided warranty.
3. Warranty coverage is contingent on the use of Sullair fluids and parts, and maintaining the machine in accordance with Sullair's recommended intervals. The service and maintenance must be completed by an Authorized Sullair Distributor.
4. Air end coverage includes all failures in material or workmanship excluding the shaft seal, inlet valve, piping/tubing, spiral valve actuator, oil pump, and discharge check valve.
5. All Sullair rotary screw compressors are required to participate in the Sullair Oil Sampling Program. An oil sample must be submitted every 2,000 hours or twice per year, whichever comes first. A missed sample interval or 2 consecutive "bad samples" void the warranty.

**TO ENSURE COMPREHENSIVE WARRANTY COVERAGE, PLEASE DOCUMENT ALL ADHERENCE TO THE ABOVE REQUIREMENTS.**
