FAQs:

Can I purchase a spare trolling motor plug end for an additional trolling motor?

Yes, if just the individual trolling motor plug end or the receptacle end is needed, you may contact Minn Kota's Technical Service Department at 1-800-227-6433 or send us a message through our contact us page.

Is the flashing yellow light on my Minn Kota Digital Charger or Portable Digital Charger normal?

Yes. This indicates the charger has entered the 2nd stage of charging.

What do the LED lights on my Minn Kota Digital or Portable Charger mean?

Each bank has the following LEDs:

-A solid RED LED indicates there is an issue with the battery connection.

-A flashing RED LED indicates an error.

If a RED LED is on, reference the Troubleshooting Section of the owners manual to determine the reason and take the necessary corrective action to remedy the situation. If you are unable to remedy the situation and need help, call the Minn Kota Service Department at 1.800.227.6433 and a technical support representative will be happy to assist you.

-A solid or flashing YELLOW LED indicates the progress of charging.

-A flashing GREEN LED indicates battery is fully charged, in Maintenance Mode and ready to use.

-A solid GREEN LED indicates battery is fully charged, in long term Maintenance Mode and ready to use.

Why doesn't the Humminbird find bottom when using the Built-in MEGA DI?

If your Humminbird unit is not finding the bottom while using Built-in MEGA DI, try the following:

How to Rotate i-Pilot Link Screen Orientation

If you prefer the remote buttons to be orientated below the touch screen, the i-Pilot Link remote has the option to orientate the screen to accommodate this preference.

How much does the Talon shallow water anchor weigh?

Three-stage Talon models produced from 2017 to present weigh between 38 and 55 lbs depending on the model.

8' Talon weighs 38 lbs.

10' Talon weighs 43 lbs.

12' Talon weighs 47 lbs.

15' Talon weighs 55 lbs.
