Carpet Protection Film use and care manual

Peel back edge of film and begin to unroll. Press down edge at beginning of area to be covered so carpet shield adheres. Continue rolling onto carpet, applying pressure and smoothing down the film while rolling out. Cut end with a sharp tool. Fold edge of the film back against the roll for the next use.

TO remove, roll up carpet protection film and discard.

Carpet protection film was designed exclusively for carpet. We recommend any of our hard surface protection products for hardwood floors.

Recommended for synthetic carpeting only. Apply only to dry carpet, do not use under damp conditions.

This product provides carpet protection for up to 30 days. Exceeding this time period for all carpet protection films can result in an adhesive transfer or residue.
