

Soda makers: A hit with soda water enthusiasts!

VEVOR

Energize your life with health

One-press carbonation

Food-grade bottles

Safe protection

No electricity needed

Perfect gift

Healthy hydration

Beverage mixing

Homemade soda water is natural, additive-free, with zero calories/fat/sugar, lightening the body's load while allowing you to customize the fizziness. The enjoyment of a zero-additive taste makes drinking water a pleasure.

One-press activation
Enjoy delicious soda water in just 3 seconds

1. Fill

Pour clean cold water between the fill lines inside the bottle.
*We recommend using cold water for the best bubbling effect.

2. Press

Press down on the carbonation button until you hear the valve "hiss."
Carbonate for 2-3 seconds each time.
*Be careful not to press for more than 5 seconds at a time.

3. Enjoy

Delight in the DIY soda water made by your soda maker.
*With a dissolution rate of up to 60%, enjoy full-bodied bubbles and a refreshing taste.

Our soda maker machine aims for ease of use, delivering cool soda water in just 3 seconds. We recommend using cold water at 4-5°C for richer bubbles and a better taste.

Food-grade PET bottle

Compatible with mainstream 60L CO2 cylinders
SodaStream / DrinkMate / AARKE / Philips .etc

1 x Water bottle 2 x Gas bottle

*The cylinder is empty and does not contain CO2 gas

*North America/Europe: Cylinder valve thread Tr21
*Australia: Cylinder valve thread G1/2 and CGA320

* BPA-free; Recyclable material
* Comes with a cap, allowing you to store unfinished soda water in the fridge.

* Recommended to consume within 24 hours. Please use the bottle at 0-40°C, especially avoid using it in the freezer compartment.

The 1L bottle capacity, equipped with a cap, allows for unfinished sparkling water to be stored in the fridge. Drinking water within 24 hours is recommended. Please use the bottle at temperatures between 0-40°C and specifically avoid using it in the freezer compartment.

Built-in overpressure "safety valve"
Safe for both the elderly and children to operate

US/EU

Safety valve on the outside of the cylinder

Anti-clog and anti-freeze nozzle

ABS body, with a fine surface texture

Carbonation button for comfortable pressing

No backflow water, no drip tray needed, easier to maintain

Our sparkling water and soda maker features an automatic pressure release. Releasing the button automatically vents gas, eliminating the need for manual depressurization and making it safer and more convenient, enabling even the elderly and children to operate it independently.

No plug

No electricity or batteries needed

Suitable for placement in multiple locations
